Product Description: Make a bold statement in your home office with the Kalamazoo Executive Desk. This industrial-inspired desk features an aged oak veneer finish, providing a vintage aesthetic with modern functionality. It includes two file drawers, utility drawers with dividers, and hidden storage areas with touch latches for added efficiency. Perfect for executives or home professionals, the desk combines spacious storage and a striking design that enhances productivity.

Collection Features: The four-piece Kalamazoo Home Office Collection evokes the look of furniture salvaged from workshops or industrial settings, featuring oak veneers in an aged finish that adds to the authenticity of each piece.

Status: Coming Soon

Finish: An aged finish on oak veneers that adds to the authenticity of the piece.

Features: Two utility drawers with dividers, a pencil tray and writing insert that can be used in either side drawer
Center drawer features drop-down for keyboard use
Two file drawers
Two hidden storage areas in visitors side with touch latches utilizing unused space efficiently

Material: White Oak Veneers

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
