## Clayton Dining Table Brown

Curves with a sense of direction. Clayton finds its form in motion, drawing from spinning tops and stacked dishware. Its rounded base layers soft, circular shapes into something sculptural and grounded. A form that holds its own, while the curves keep it feeling easy. Modern, balanced, and quietly bold—the spin that stops the room.

- **Layered Column Silhouette:** Circular top pairs with a layered column base inspired by spinning tops and stacked dishes, bringing visual rhythm and balanced scale to the room.
- **Oak-Forward Materials:** Thick oak veneer showcases natural grain across top and base, combined with solid oak elements and rubber wood for warmth and everyday durability.
- **Stacked Pedestal Build:** A substantial, centered base anchors the table for stability, while layered, curved forms keep sightlines open and the silhouette composed from every angle.
- **Everyday Stability:** Built-in levelers fine-tune the base on uneven floors, and the pedestal design maximizes legroom and chair placement for easy, comfortable gatherings.
