Type: Tables, Console Tables

Category: Living Room

Collection: Sanctuary

Color: Amber Sands

Number of Drawers: 2

Style: Traditional

Finish: Medium Wood

Brand: Hooker Furniture

Product Description: With its curvaceous base, grace and elegance emanate from the Sanctuary Console. At a slim 12 _- inch depth, this console packs a punch of style for tight spaces. The lovely finish is Amber Sands, a neutral color on decorative Primavera veneers with maple inlay.

Collection Features: Pursue serenity at home. Create your own personal sanctuary, a special place where you can experience comfort within.

Status: Active

Finish: Amber Sands - a dry, neutral colored finish on primavera veneers with maple inlay. Distressing includes rasping, chopping and worm holes.

Features: Two drawers

Material: Primavera and Maple Veneers with Resin

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
