## FEATURES

### 14 Place Settings

Beko dishwashers can perfectly clean dishes up to 14 place settings without leaving any piece of cutlery out.

### AquaIntense

Creates a power zone in the right hand side of the lower rack by providing intense water pressure. This specially designed 180 degree rotating spray arm with a 360 degree rotating head, helps water reach every single angle to clean heavily soiled pots and pans. This feature provides up to 5 times improved cleaning based on Pots & Pans+ program.

### SteamGloss

Provides extra 10-18 minutes of intense heating to minimize water stains. This feature provides up to 70% more glossiness on glasses.

### Auto Tablet

Sensors detect rinse aid and automatically sets drying cycle duration. This provides the best drying results without any concern.

### AquaFlex

It is the most suitable washing programme for daily mixed dishes including plastic items. While delicate glass items are washed in the upper basket, pans and trays can be washed in the lower basket.

### Prosmart Inverter Motor

Variable speed circulation motor allows to use optimum necessary amount of water and energy. Due to magnetic design the motor has no persistent low frequency sound, and creates less vibration.
