Evo® Centre™ - Residential

Drop-In Electric Cooktop

INDOOR AND OUTDOOR

Circular Cooking Surface Designed To Create A Social Cooking Space In Indoor and Outdoor Kitchens

- 23" (584mm) ceramic-clad steel cooking surface.
- Two temperature zones: Edge-to-edge continuous temperature or Inner Focus
- Variable temperatures 225°F to 525°F (121°C to 274°C).
- Operates on 120V, 20AMP dedicated circuit.
- Dual touch-sensitive display controllers provide for temperature zone selection and temperature selection, and power on and off.

Designed For Custom Kitchen Spaces

- Drop-in installation required.
- Install directly to stone, tile or steel surfaces, with zero-clearance to combustible cabinet construction.
- The circular cook surface and near flush chassis with its seamlessly integrated touch controls inspires a minimalist aesthetic that opens endless design possibilities.

Easy Operation, Easy Maintenance, Easy Cleanup

- Cooking techniques: sauté, braise, flattop (plancha) grilling, fry, pan fry, roast, poach, steam, and toast.
- Cook surface is durable and easy to clean.
- Sealed electric components are designed to the IP67 rating.
- The moulded silicone rubber drip pan is dishwasher safe.
- The exterior chassis is easy to clean stainless steel.

SPECIFICATIONS:

The Evo® Centre™ has a 23" diameter ceramic-clad steel cook surface heated underneath by a dual-zone electric heater. Foods can be prepared directly on the cook surface, and pots and pans may be used as in traditional stove top cooking (either separately or simultaneously). Surface temperatures range from 225°F to 525°F (121°C to 274°C) from the center to the outside edge. A removable drip pan under the cooking surface allows the cook top to be used for delicate preparations where a grease tray is not necessary. Operating on 120V, 20A dedicated circuit, the Centre™ is an ideal solution for creating a social cooking space in your indoor or outdoor kitchen.
