

WILL THIS FIT MY CAR? [➤ \(/fit-guide\)](#)

DS Series 4" Coax

The DS Four-Inch Coaxial Speakers are a perfect upgrade for great sound in your car doors.

Using zero protrusion PEI tweeters ensures you get every bit of clarity you need, without interfering with factory grilles. A stamped steel framework supports a ribbed, UV-treated foam surround and rigid polypropylene cone with EVC™ (Extended Voice Coil) technology, for the best sonic quality.

These DS speakers work best with 30 watts of recommended power. See below for more details.
