

Small Rivet Mirror

DM188 SMALL

Availability: In Stock

DESCRIPTION

Our Small Rivet mirror is a single panel set within a frame that has been treated to an aged gold-leaf finish for an overall time-worn appeal. The frames are quite literally riveted around the antiqued mirror with its watermarked areas that provide a colorful display of golds and violets, the hues a result of multiple solutions interacting with the mirror. Each mirror is intended to be unique, and the glass used is tempered so it cannot be cut and is harder to break. We also offer this mirror in medium and large sizes.
