
INSTALLATION INSTRUCTIONS

Horizontal And Vertical Table Stands

and Accessories

Model: FTP-Series

The FTP-Series is a free standing, pole mount solution for multiple displays.

BEFORE YOU BEGIN

⚠ CAUTION!

To prevent damage to the Kit, which could affect or void the Factory warranty, and to the equipment that will be attached to it, thoroughly study all instructions and illustrations before you begin the installation.

- If you have any questions about this installation, contact Chief Manufacturing at 1-800-582-6480.

ASSEMBLY AND INSTALLATION

Mount Assembly

FTP-230 Assembly

To assemble the FTP-230:

1. Assemble pole (60) to base (40) using one 3/8-16 x 1" FHCS (90). (see Figure 2)

2. Place front pole clamp, with Centris Head, (210) against pole in approximate mounting location.
3. Place three BHCS (230) into rear pole clamp (220) and place against pole aligning with front pole clamp (210). (see Figure 3)
4. Secure rear pole clamp (220) to front pole mount (210) and pole by tightening three BHCS (230) using 5/32" hex key (120). (see Figure 3)

Figure 2: Assemble Pole to Base

Figure 3: Mount Centris Head with Pole Clamp

FTP-220, 320, And 440 Assembly

To assemble the FTP-220, 320, and 440:

1. Assemble pole (50) to base (40) using one 3/8-16 x 1" FHCS (90). (see Figure 2)
2. Assemble pole clamp back (240) to pole mount front using two FW (250) and two BHCS (260) using a 5/32" hex key. (see Figure 4)
3. Secure pole mount back (240) to pole mount front and pole by tightening two BHCS (260) using a 5/32" hex key.

Display Installation

Attach Centris Head to Flush Mount Display

⚠ CAUTION!

CAUTION: If display uses a screw size other than those included in the kit, DO NOT use the screws provided. Using the wrong screws could result in damage to your monitor.

1. Install two M4 x 12mm Phillips pan head screws (160) into two upper mounting holes in display back. (see Figure 5)

NOTE: DO NOT fully tighten at this time.

2. Hang display on Centris head. (see Figure 6)
3. Install bottom two M4 x 12mm Phillips pan head screws (160) through Centris head mounting holes and into lower mounting holes in display back.
4. Tighten ALL four M4 x 12mm Phillips pan head

screws (160). (see Figure 7)

Figure 5: Prepare Display

Figure 6: Hang Display

Figure 7: Secure Display to Centris Bracket

Attach Centris Head to Recessed Mount Display

NOTE: Refer to Table 3 to select the applicable screw and spacer combination.

1. Uninstall end lock using the 5/32" hex key (120). (see Figure 8)
2. Remove Centris head from array rail (20, 30).

Figure 8: Remove End Lock(s)

Figure 9: Slide Centris Bracket off Array Rail

3. Place display face down on a clean dry surface.
4. Place four 3/8" or 3/4" nylon spacers (190 or 200) over four mounting holes in display back (see Figure 10).
5. Align Centris head mounting holes with four nylon spacers (see Figure 10).
6. Secure Centris head to display using four M4 x 20mm Phillips pan head screws (170), or four M4 x 30mm Phillips pan head screws (180) (see Figure 10).

Figure 10: Mount Centris Bracket to Display

7. Slide display with Centris bracket onto array rail (20, 30) (see Figure 11).

NOTE: Repeat previous steps for each additional display.

8. Reinstall end locks into mounting rail using the 5/32" hex key (120) (see Figure 12).

ADJUSTMENTS

Display Adjustment

The FTP Series mount allows horizontal, pitch, and rotational adjustment of each display.

The FTP Series mount also allows a full 360 deg. of display rotation with a maximum pitch range of 15° up and 15° down.

Display Horizontal Position Adjustment

To adjust display horizontal position:

1. Loosen Centris bracket rear adjustment knob (see Figure 13).
2. Slide Centris bracket with display left or right until properly positioned on array rail.
3. Tighten Centris bracket rear adjustment knob.

Figure 13: Display Horizontal Adjustment

Display Pitch and Roll Adjustment

To adjust display pitch or roll position:

1. Loosen Centris bracket front adjustment knob. (see Figure 14)
2. Tilt display up or down, or adjust display roll left or right until properly positioned.
3. Tighten Centris bracket front adjustment knob.

Figure 14: Display Pitch and Roll Adjustment

CABLE MANAGEMENT

The FTP Series mount includes cable management features used to properly route and secure display cables.

To use the cable management features:

1. Connect cables to display.
2. Route cables through cable clips on array rail.
3. Route cables down pole and away from mount and secure to pole using sheath (80).

Figure 15: Cable Management
