

CLEANING INSTRUCTIONS

- For liquid spills: immediately blot the fabric surface gently with a paper towel.
- Spot clean, soak a clean cloth towel in a soap and water mixture (1 teaspoon of a liquid detergent and 16 oz. of water), clean the stained area in a circular motion, and pat dry with a cloth.
- Do not over wet the material.

For stubborn stains: use multi-purpose cleaner (Woolite® fabric and upholstery cleaner).

- Pile fabrics may require light brushing to restore appearance with a non-metallic brush.

**LiveSmart, fabric for life's
unexpected moments.**
