Neoclassic Symmetry 1

D21S405-229

Neoclassic Symmetry is an architectural photograph of the interior of the Arc de Triomphe, one of the most iconic monuments in the world. The soaring archway exemplifies the Neoclassical architectural style. The soffit displays a sophisticated coffering pattern featuring ornate rectangular, recessed panels that accentuate the depth and dimension of the structure. The image highlights the archivolts designed in a classical motif, with egg-and-dart patterns and bead-and-reel molding.

Capturing an architectural masterpiece in grayscale, Neoclassic Symmetry is a sophisticated addition to the carefully curated ART by TA Collection.
