

WI-SP600N/W

Wireless Noise Canceling Headphones | SP600N

Enjoy your favorite workout tunes without distraction. The WI-SP600N wireless in-ear headphones are IPX4 rated splash-resistant¹ to protect against sweat and rain, and feature Noise Canceling technology to minimize distractions. Switch to Ambient Sound Mode to balance your music with the background, so you can hear a gym partner or oncoming traffic.

Features

Keep your focus with Noise Cancellation

When you need that special playlist to take your workout to the next level, noise canceling minimizes the sounds of the gym or noisy environments, leaving just you and the beat.

Stay aware with Ambient Sound Mode

Ambient Sound Mode expertly blends your music with the sound of the environment around you. Choose Normal mode for when you’re running or working out outside to stay aware of your surroundings. Voice mode lets you hear instruction from a personal trainer or work out buddy while still enjoying your motivational music.

Sweat and splash-proof

Yes to music, no to sweat. With an IPX4 rating, the headphones can handle sweat or splashes from rain when you’re working out.

Boost your performance

Powerful EXTRA BASS™ sound gives you the drive to keep going by enhancing the low frequencies for bigger beats.

Up to 6 hours of battery life on a single charge

Get a couple of trips to the gym in without having to recharge with up to 6 hours of playback from a single charge.¹

Built-in microphone for hands-free calls and voice assistant commands

Take and make phone calls, even with your phone in your pocket or bag. You can also connect to your favorite voice assistant, such as Google Assistant or Siri, by long-pressing the play button on your headphones.² With a high-quality built-in microphone, you’ll be able to have hands-free conversations on your smartphone with ease.

Designed for wireless movement

Work out without wires holding you back. A lightweight design makes these wireless sports headphones comfortable, secure, and discreet to wear whether you’re training or out and about

NFC™ and BLUETOOTH® connectivity

Stream effortlessly with Bluetooth® and NFC One-touch listening.³ Near Field Communication (NFC) technology makes complex set-up sequences a thing of the past. Simply touch selected NFC-enabled devices to the on-body N-mark for a quick, seamless connection, then start streaming content via Bluetooth®. No NFC? No problem. You can still manually connect to Bluetooth® using your device’s settings menu.

Secure and comfortable fit

Extensively tested in real workouts, these headphones have a secure fit that you can adjust to your ears, plus a soft-cushioned fitting holds the earbud securely in place while maintaining ultimate comfort.

Customize your sound as you like with the “Sony | Headphones Connect” App for Android/iOS

Simply download the Sony | Headphones Connect app and set up your ideal noise canceling and equalizer settings in Quick Sound Settings.⁴ Then when you’re ready to get started, push the Noise Canceling button twice to access your saved sound settings in an instant.
