

TOP LOAD WASHER

AWNE82 / AWNE92

COMMERCIAL-GRADE ELECTRONIC CONTROLS

Laundry is all we do, and we do it better than anyone else in the world. For decades, we've been designing, building and testing electronic controls the same way we do our machines: for unmatched, longer-lasting performance. Tested to endure through virtually every event that typically causes malfunction, Speed Queen electronic controls are durably designed to last in the harshest commercial environments — and last even longer in your home. We're so confident in our controls that we back our electronic models with an industry-best 5-year warranty on all parts and in-home labor.

A PROVEN PERFORMER

For more than a century Speed Queen has been focused on laundry, we know what it takes to deliver a machine with long-lasting strength, durability and performance like no other. And we put it all into our line of top load washers.

Speed Queen® top load washers are built using premium metal parts where others use plastic. They're designed and manufactured to deliver 25 years of commercial-grade performance and superior wash results in your home. And they're pushed beyond their limits in our state-of-the-art test lab to ensure the kind of reliability you can only achieve with 100 years of ingenuity under your belt.

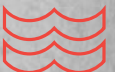

BUILT BETTER TO LAST LONGER

- » Constructed with premium, metal components
- » Tested to deliver 25 years of commercial-grade performance
- » Three-coat, commercial-grade finish keeps washer looking new for years to come
- » 3.3 cu. ft. stainless steel tub won't corrode, chip, crack or pit with normal use

CLEANER CLOTHES

- » Perfected mechanical action moves more laundry through the water
- » A 210-degree agitator with 68 strokes per minute provides maximum water-to-laundry contact
- » Tub spins during draining to prevent dirt from being left behind

INDUSTRY'S BEST WARRANTY

- » Industry-leading 5-year warranty
- » Covers all parts and in-home labor

ABOUT SPEED QUEEN®

Speed Queen laundry equipment is designed, built and tested to deliver 25 years of commercial-grade performance. We use metal components where others use plastic. We rigorously test our products beyond their limit to ensure reliable performance and superior wash results. And because we make no distinction between the machines we engineer for commercial applications and the machines we offer for the home, you can be sure that your Speed Queen equipment is built better to last longer.

For the most accurate information, the installation guide should be used for all design and construction purposes. Due to continuous product improvements, design and specifications are subject to change without notice. The quality management system of Alliance Laundry Systems' Ripon facility has been registered to ISO 9001:2008. Printed in the USA.
