Doc.# 500-955 v 1.07 / 1 of 3

1

Attach Hutch Post

- A.** Screw threaded studs into the ends of 6 posts (TRIPLE), 7posts (QUAD). Tighten with 5/32" hex key. Stick felt pads to underside of ALL posts, this will prevent marring the surface of the top shelf.

- B.** Screw the rear and side posts through the panel and into the bottom posts. Be sure to square the post with the shelf. Do not over tighten.

Align the front center posts with shelf and screw in place from underside using the Joint Connector Bolts.

2 Rear Panels

Slide the rear panels down the rear posts.

3 Side Panels

Slide the wood panels down the outer posts.

Optional: black panels are inserted down the center posts to enclose interior of cabinet.

4 Top Panel

Secure the top panel in place using the connector bolts and 3/16" hex key.
