

Landscape Wiring Diagram

Pre-Wire Guide

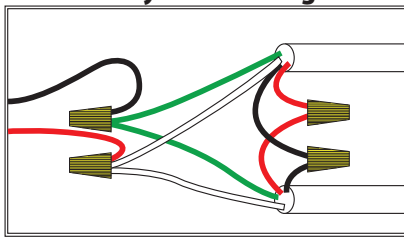

159AT70 System

Features of this Architecture

1. High output and easy balance of bass to top end.
2. Bass fully isolated from satellites for higher system maximum output levels (MOL) and low satellite stress.
3. More forgiving of acoustical variances in sub versus satellite proximity.
4. High dynamic headroom from above.

**Left Channel
Daisy-chain wiring.**

**Right Channel
Daisy-chain wiring.**
