The Bee My Honey Chandelier, designed by Sasha Bikoff, is guaranteed to be a playful element in an interior. Made of wrought iron in an antique brass finish, the gold chandelier is handmade using a technique called metal piercing, a process during which composite is poured into the cavity of a mold and intricately pierced using a nail-shaped piece of metal. The textural stippling creates the feeling of a hive around which cast bees have been welded. We also offer this design in a side table.
