TIMBRE SERIES
TiULTIMA

Description

The Timbre Ultima presents an extremely rich, three-dimensional image that features tight, well controlled bass and stunning high frequency detail. Each ported handcrafted cabinet utilizes reference-grade SEAS woofers and tweeters and is meticulously finished by hand. Available in solid hardwoods or finished to match any color, they are perfect for use as front speakers in a small home theater, standalones for music, or as surround speakers in a larger home entertainment center.

Key Features

- World-class drivers for natural musicality
- Coupled chamber provides rigid acoustic suspension for tight bass
- **Standard finishes:** White Oak, Black Walnut, Cherry, Grain White, Grain Black
- **Custom finishes:** Other domestic or exotic hardwoods or any custom paint color
