# What makes Nectar different?

## The NectarTech Sleep System

Our signature combination of fabrics and foams that makes up the top three layers of every Nectar mattress.

Here's a few different ways to talk about the NectarTech Sleep System with customers...

### Headline Version

Discover the NectarTech Sleep System - unparalleled cooling, comfort, and support.

### Short Version

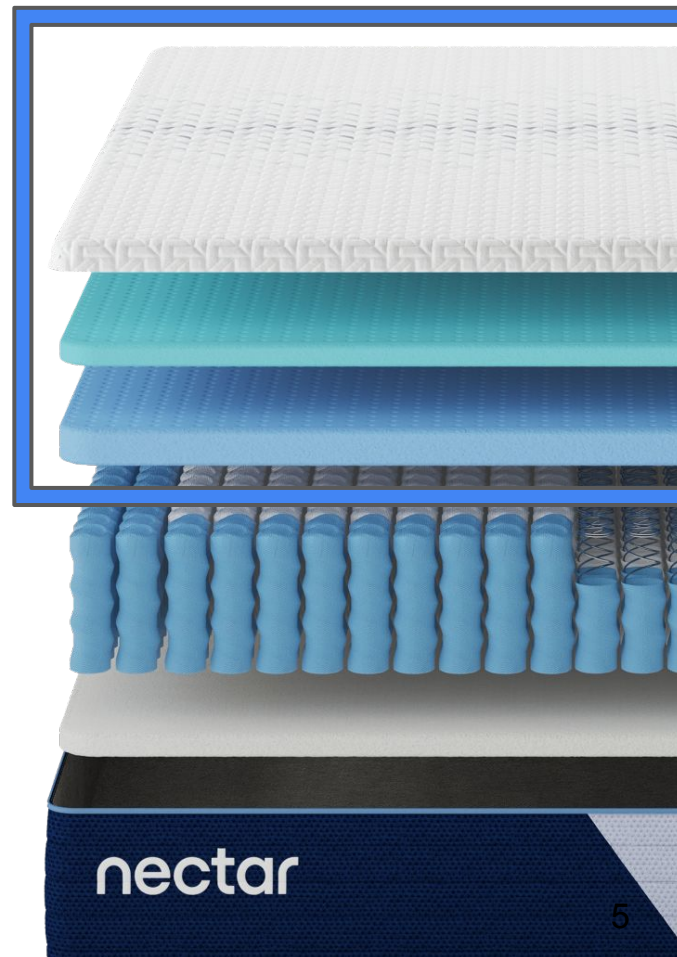

The NectarTech Sleep System combines breathable cooling fabric, contouring memory foam, and dynamic support foam to deliver the most restful and rejuvenating sleep you'll ever experience. Join over 5.5 million happy sleepers who have transformed bedtime with America's most awarded mattress brand.

### Long Version

Experience the ultimate in sleep innovation with the NectarTech Sleep System, featuring three expertly crafted layers working together to make sure you enjoy the most restful and rejuvenating sleep possible:

- **Cooling Top Layer:** cool-to-the-touch fabric ensures a refreshing sleep experience
- **Pressure Relief Layer:** contouring memory foam provides unmatched comfort
- **Responsive Support Layer:** dynamic support foam promotes spinal alignment

Discover the superior comfort, quality, and support that has transformed bedtime for more than 5.5 million happy sleepers. Try the NectarTech Sleep System for yourself and discover why Nectar is America's most awarded mattress brand.

# How to talk about Nectar Ultra Hybrid with customers...

- **Titles**

- **Short:** Nectar Ultra
- **Long:** Nectar Ultra Hybrid Mattress

- **Bullets**

- **Short**
  - 15-inch height
  - Targeted pressure-relief for shoulders, back, and hips
  - Superior edge-support, motion isolation, and airflow
- **Long**
  - **4x more contouring memory foam** than Nectar Classic plus a zoned ergonomic support layer providing **dynamic pressure-relief for your shoulders, back, and hips**
  - **4x more cooling fibers** than Nectar Classic plus **temperature-regulating phase change material**
  - Individually-wrapped coils upgrade support, improve motion control, and increase airflow
  - 15" height - 6 layers of premium OEKO-TEX® Standard 100 certified fabrics & CertiPUR-US® certified foams

- **Short Description**

- The Nectar Ultra 15" Hybrid Mattress combines all of the best mattress tech on the market into one unbelievable package. 4x more contouring memory foam\* and a zoned ergonomic support layer provides targeted pressure-relief to your shoulders, back, and hips. 4x more cooling fibers\* works in harmony with a layer phase change material to keep your body cool. Individually-wrapped innerspring coils stop motion transfer in its tracks, while offering top-notch edge support and enhanced airflow. Embrace the future of sleep with the revolutionary Nectar Ultra Hybrid.

# Product Renders

# Layer 1 of 6

®

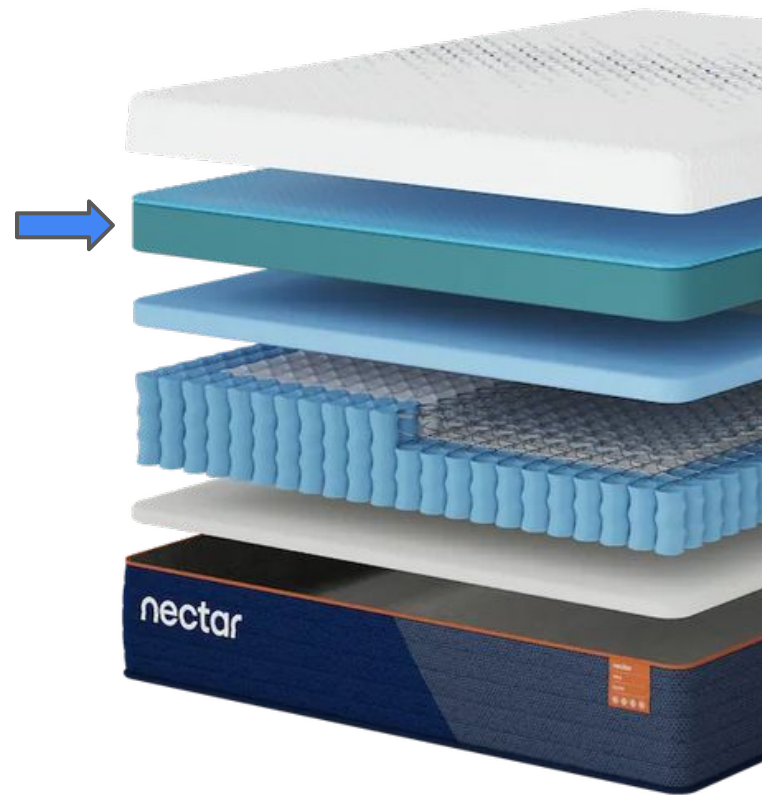

<b>Marketing Name</b>	Cooling Top Layer
<b>Value Proposition</b>	Breathable, cool-to-the-touch fabric ensures a refreshing sleep experience, while antimicrobial properties help maintain a healthy sleeping surface.
<b>The Nectar Sleep System</b>	Part 1 of the NectarTech Sleep System
<b>Benefits</b>	<ul style="list-style-type: none"><li>• Cooling</li><li>• Breathable</li><li>• Refreshing</li><li>• Soft</li><li>• Smooth</li><li>• Antimicrobial</li><li>• Durable</li></ul>
<b>Materials Description</b>	Polyester fabric with antimicrobial properties and polyethylene fibers added for cooling
<b>Notes</b>	<ol style="list-style-type: none"><li>1. Removing the cover will void the warranty on the mattress.</li><li>2. The cover is intended to provide a soft tactile experience for the consumer since it is the layer they will physically interact with the most.</li></ol>

# Layer 2 of 6

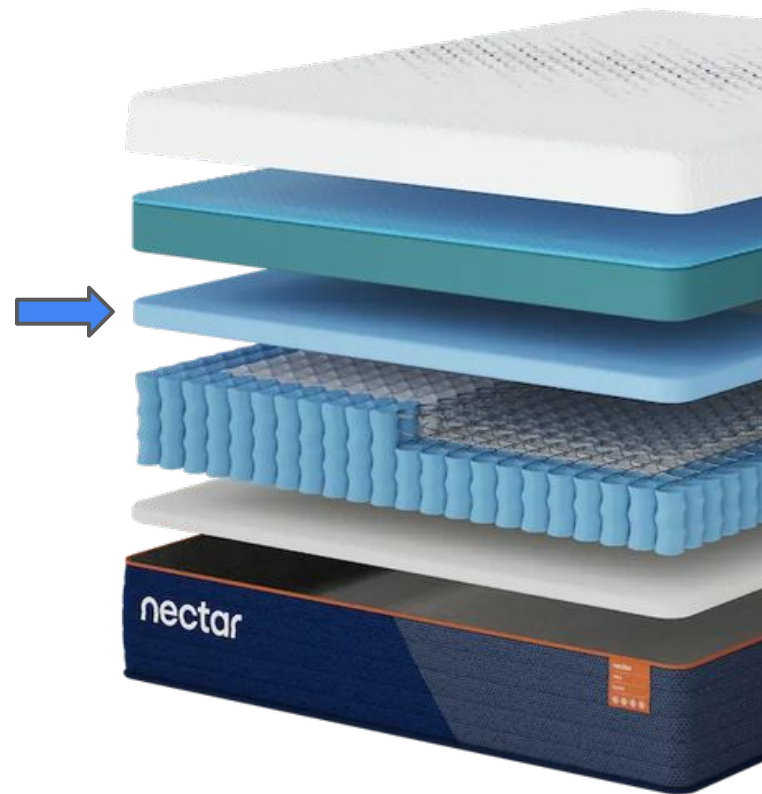

<b>Marketing Name</b>	Pressure Relief Layer
<b>Value Proposition</b>	Enjoy restorative sleep with contouring memory foam that provides unmatched comfort, cushioning your back and hips for a more restful night. Plus, a top sheet of phase change material dynamically reacts to your body's temperature and helps balance it for an ultra cool sleep.
<b>The Nectar Sleep System</b>	Part 2 of the NectarTech Sleep System
<b>Benefits</b>	<ul style="list-style-type: none"><li>• Pressure Relief</li><li>• Contouring</li><li>• Memory Foam</li><li>• Comfort</li><li>• Restorative</li><li>• Back &amp; Hip Support</li></ul>
<b>Materials Description</b>	4 inches of memory foam with a sheet of phase change material (PCM) layered on top
<b>Notes</b>	<ol style="list-style-type: none"><li>1. This layer is intended to cushion the body at its most sensitive areas, including common pressure points such as the hips and the back.</li><li>2. The plush memory foam contours to the sleeper's body, providing support where they need it, and comfort where they want it.</li><li>3. PCM is unique to the Ultra mattresses, providing extra cooling and dynamically reacting to the sleeper's body temperature.</li></ol>

# Layer 3 of 6

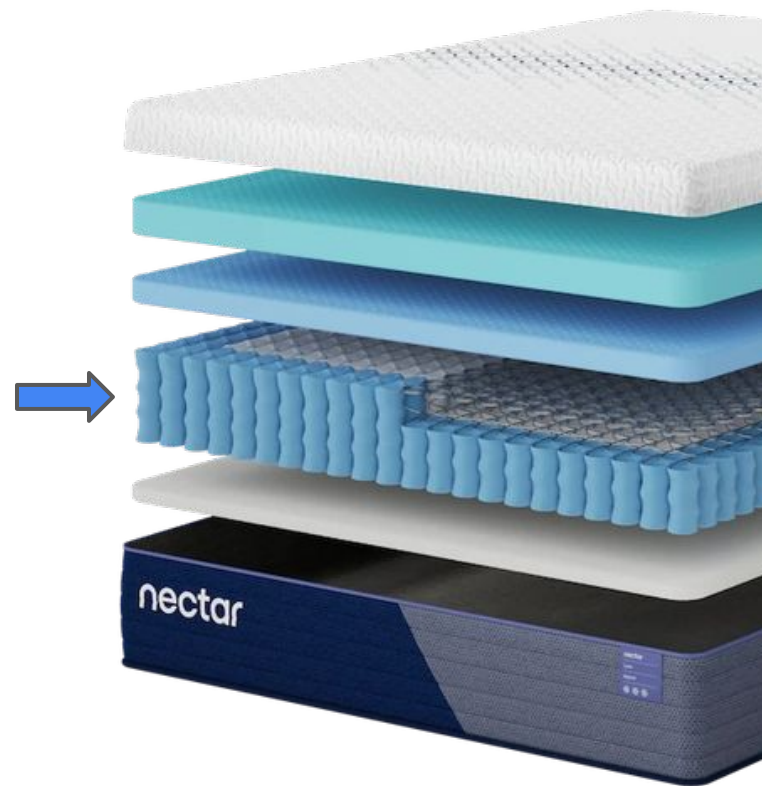

<b>Marketing Name</b>	Responsive Support Layer
<b>Value Proposition</b>	Zoned support foam uses three ergonomic zones to provide extra support for your shoulders, back, and hips, while promoting proper spinal alignment and keeping you properly positioned on top of the mattress for uninterrupted sleep.
<b>The Nectar Sleep System</b>	Part 3 of the NectarTech Sleep System
<b>Benefits</b>	<ul style="list-style-type: none"><li>• Support</li><li>• Promotes Spinal Alignment</li><li>• Responsive</li><li>• Prevents "Sink-In"</li></ul>
<b>Materials Description</b>	2 inches of zoned support foam with three ergonomic zones providing dynamic support for the shoulders, back, and hips
<b>Notes</b>	<ol style="list-style-type: none"><li>1. This layer is intended to help provide resistance against the body as the sleeper lays down on top of the mattress</li><li>2. If they were to jump onto their mattress, this layer prevents the sleeper from feeling the base support layer of foam.</li><li>3. This layer is what prevents the sleeper from "sinking in" too far into the mattress.</li><li>4. The use of zoned foam with three ergonomic zones for shoulders, back, and hips is unique to the Ultra mattresses.</li></ol>

# Layer 4 of 6

<b>Marketing Name</b>	Hybrid Motion Isolation Layer
<b>Value Proposition</b>	Individually-wrapped innerspring coils deliver enhanced support, superior motion control, and upgraded edge stability, all with the added benefit of better airflow for a cooler night's sleep.
<b>The Nectar Sleep System</b>	Not part of the NectarTech Sleep System
<b>Benefits</b>	<ul style="list-style-type: none"><li>• Foundation</li><li>• Minimize Motion Transfer</li><li>• Structure</li><li>• Edge Support</li></ul>
<b>Materials Description</b>	8 inches of individually-wrapped innerspring coils
<b>Notes</b>	<p>Coil Counts: Twin 465   Twin XL 495   Full 651 Queen 792   King 990   Cal King 980</p> <p>(continued on next slide)</p>

## Layer 4 of 6 (continued)

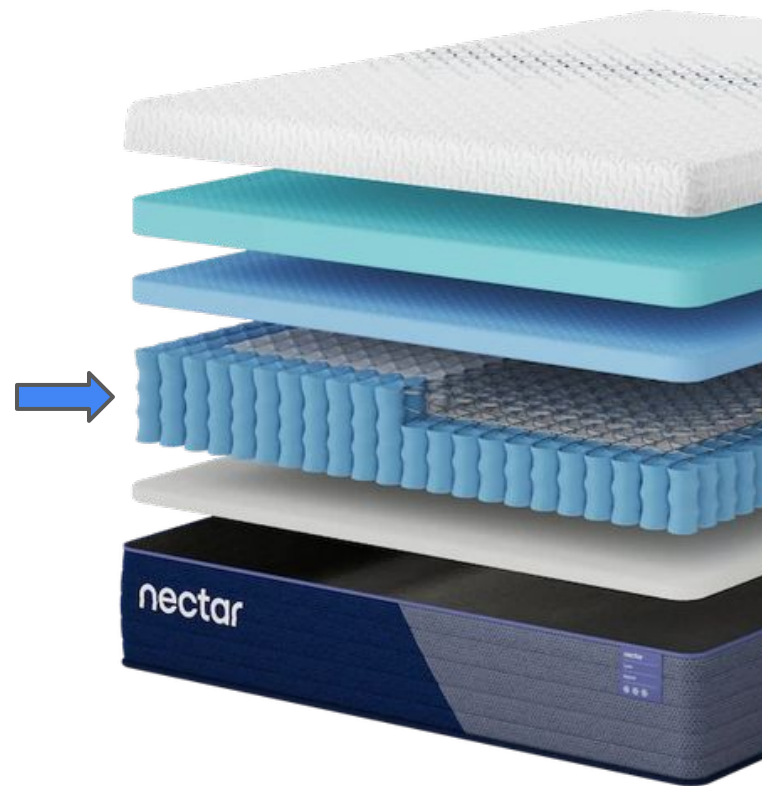

### Marketing Name

Hybrid Motion Isolation Layer

### Notes

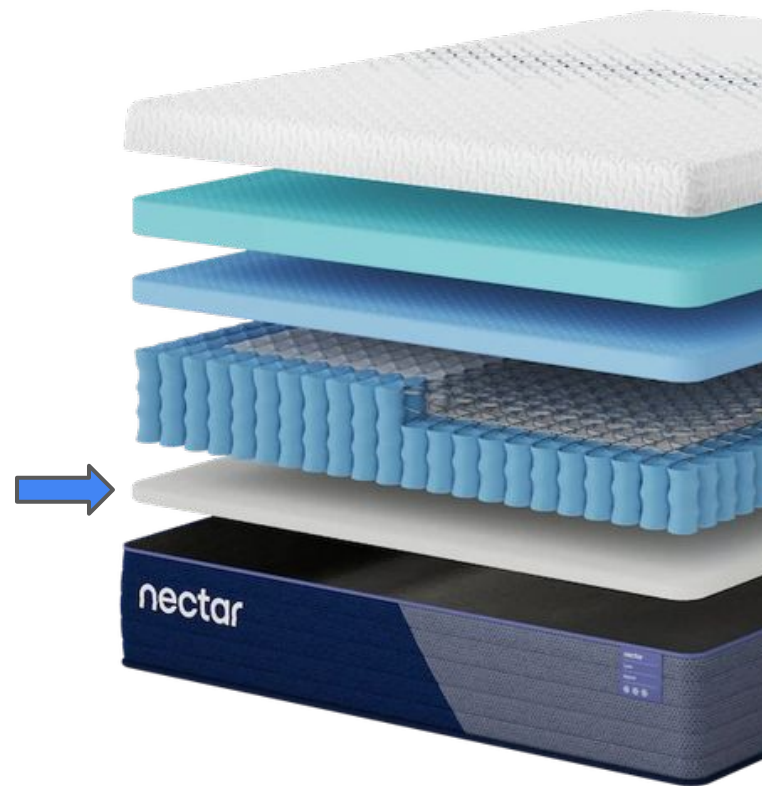

1. This layer is intended to help provide the following benefits:
  - a. Breathability/Airflow: innerspring mattresses have been shown to help promote airflow through the product better than foam-only mattresses due to the density (or lack thereof) of the materials.
  - b. Edge Support: 2 rows of higher-gauge coils are used for the perimeter of this layer's footprint to help bolster the edge of the mattress when customers put weight on it. This structure also helps reduce the chance of customers rolling off of the mattress in their sleep.
  - c. Motion Transfer: individually-wrapped coils are not directly connected to each other; therefore, when pressure is placed on one coil, it will not drag others down with it.
  - d. Support/Contour: innerspring coils create a supportive surface that flexes to conform to individual curves and contours of the body.
2. Note: We cannot use the term "pocketed coils" to describe the individually-wrapped innerspring coils of the bed due to the fact that a competitor has trademarked the term "pocketed coils". One alternative is to use "individually-wrapped coils" instead.

# Layer 5 of 6

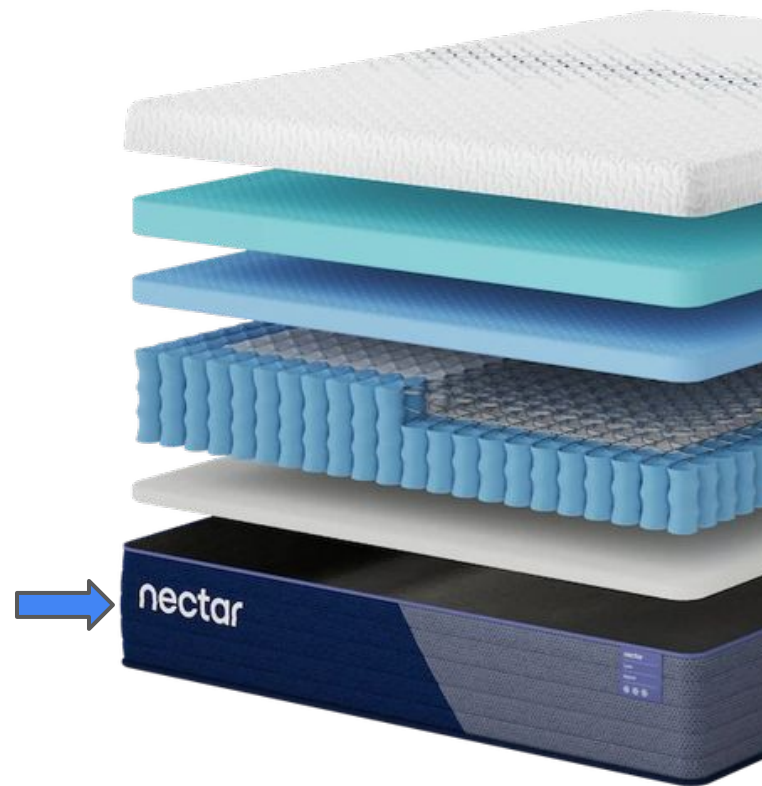

<b>Marketing Name</b>	Foundation Layer
<b>Value Proposition</b>	Provides a solid foundation, enhancing endurance and stability to ensure the upper layers perform at their best.
<b>The Nectar Sleep System</b>	Not part of the NectarTech Sleep System
<b>Benefits</b>	<ul style="list-style-type: none"><li>• Foundation</li><li>• Base Layer</li><li>• Endurance</li></ul>
<b>Materials Description</b>	1 inch of foundational foam
<b>Notes</b>	<ol style="list-style-type: none"><li>1. This layer is intended to provide solid support for the layers above it. It helps give structure and stability for all of the other components to perform as desired.</li></ol>

# Layer 6 of 6

<b>Marketing Name</b>	Durable Cover
<b>Value Proposition</b>	This soft, protective cover secures the mattress core, preventing layers from shifting and enhancing the overall longevity of the mattress.
<b>The Nectar Sleep System</b>	Not part of the NectarTech Sleep System
<b>Benefits</b>	<ul style="list-style-type: none"><li>• Durability</li><li>• Security</li><li>• Shift-Resistant</li><li>• Protective</li><li>• Longevity</li><li>• Stability</li></ul>
<b>Materials Description</b>	Polyester fabric
<b>Notes</b>	<ol style="list-style-type: none"><li>1. The bottom cover component helps to hold the whole mattress together securely.</li><li>2. This cover helps prevent any potential shifting of the core foam pieces within the mattress build so that sleepers can enjoy their mattress for years to come.</li></ol>

# Claims & Certifications

# Claims Overview

## Component Claims

- **Cover Fabric**
  - OEKO-TEX® Standard 100 Compliant Fabrics
- **All Foam Layers**
  - CertiPUR-US® Certified Foams
- **Full Bed**
  - Prop 65 Compliant
  - Flammability – 16 CFR Part 1632 & 1633
  - Product Durability – ASTM F1566
  - Cannot claim as “Made in the USA”

## Recovery Time After Unboxing/Unwrapping the Mattress

- **Comfort Expansion Time:** 3-5 Hours
- **Full Expansion Time:** 48 Hours

# OEKO-TEX®: Standard 100

Certification	Component	About
 <b>STANDARD 100</b>	Cover Fabrics	<p>OEKO-TEX® STANDARD 100 is a label for textiles tested for harmful substances. It sets the benchmark for textile safety, from yarn to finished product. Every item bearing the STANDARD 100 label is certified as having passed safety tests for the presence of harmful substances.</p> <ul style="list-style-type: none"><li>• The certified article is harmless to human health.</li><li>• Every thread, button and accessory have been tested against a list of over 1,000 harmful substances.</li><li>• The more intensive the skin contact, the stricter the human ecology requirements and laboratory tests.</li><li>• They use globally standardised test criteria.</li><li>• The certification complies with international requirements and regulations.</li><li>• They review their limit values for harmful substances at least once a year.</li></ul>

# CertiPUR-US® Certified Foams

# Policies & Services

- **Who is covered?**

- Nectar mattresses are covered under a Limited Nectar Forever Warranty™ for the full period of the original owner's ownership and use
- Ownership cannot be transferred; the person(s) that first purchased the mattress are considered the "original owner(s)"

- **What is covered?**

- Nectar warrants the mattress against defects in materials and workmanship set forth below:
  - Deterioration causing a visible indentation of a one and one half inch (1.5") or larger indentation that is not caused by misuse
  - Any physical flaw that causes the foam material to visually degrade, split, or crack despite normal use and handling
  - Any manufacturing defect in the assembly of the cover

- **What is not covered?**

- Nectar does not warrant the mattress against:
  - Any product that has had the cover removed for any reason—removing the mattress cover will void the warranty
  - Any damage due to environmental causes
  - Any product that has been subject to misuse, neglect, accident, or use in violation of instructions including proper support for the mattress plus user(s)
  - A normal and expected increase in softness of the foam which does not affect the pressure-relieving qualities of the mattress
  - Comfort preference
  - Defects caused by physical abuse or damage to the structure of the mattress and/or cover material, including but not limited to:
    - Burns, cuts, tears, liquid damage, or stains
  - Mattresses sold:
    - "As-is", "Pre-conditioned", "Used", "Returned", "Previously owned", or any other wording indicating that the mattress is not "new" or of "first quality"

- **Warranty Remedies**

- Under 10 years of ownership:
  - Nectar will replace your mattress with a brand new Nectar mattress at no charge to the customer
- Over 10 years of ownership, as tracked by the date of delivery:
  - Nectar will completely repair or recover your mattress, or replace it entirely, at the sole discretion of Nectar
  - The customer may incur a \$50 transportation charge, but this may be waived if Nectar confirms a defect as described above

- **Suggested Use**

- The Nectar mattress should be used on a firm, solid surface, such as a bed base, that is structurally capable of supporting the weight of the mattress plus user(s) for the entirety of its use

- **Customer's Responsibility**

- A \$50 shipping fee may be incurred each way, but this fee may be waived by Nectar if we can confirm a defect in workmanship or materials

# Returns & Exchanges

- **Notable Points**

- Nectar does not charge a fee to return products
- Refunds will only be processed for those items that are included in the return request and approved accordingly
- Customers that **have** opened their mattress may submit a return request **no earlier than 30 days after the date of delivery**
- Customers that **have not** opened their mattress may submit a return request **at any point on or after the date of delivery**
- Customers may submit a return request **no later than 365 days after the date of delivery**
- Customers have 30 days to submit all required information to complete a return request. Should a customer not submit the required information within 30 days, the request will expire and they will need to initiate a new request
- Customers may initiate a return request up to the 365th day of their trial and are given 30 days to complete the request

- **Return Eligibility**

- Customers must be within their 365-night trial period
- If the customer's mattress is **opened**, they must be at least 30 days out from date-of-delivery
- If the customer's mattress is **unopened** they may return the mattress at any point post-delivery.
- Mattress must be clean and undamaged

- **Return Process**

- Contact our Customer Success team by phone, e-mail, or chat!

- **Exchanges**

- Exchanges are processed as return requests and then a separate repurchasing of the correct product.

# 365 Night Home Trial

- Customers have a full 365 nights to try the mattress in their home
- Trial period begins **on the day of delivery**
- Customers who **have** opened their mattress may submit a return/exchange request **no earlier than 30 days after the date of delivery** (see return policy for more information)
- Customers who **have not** opened their mattress may submit a return/exchange request **at any point after date-of-delivery** (see return policy for more information)
- Customers may submit a return/exchange request **no later than 365 days after the date of delivery** (see return policy for more information)

---

# Shipping

- Shipping is free for orders being delivered **within the contiguous US**
- Shipping charge is required for orders being delivered to Alaska & Hawaii
- We do not ship to other US territories such as Puerto Rico, Guam
- Shipping fees associated with deliveries to Alaska & Hawaii are non-refundable

RESIDENT
