## NOTES

**Note:** If installing between frameless cabinets, a 1/2" wide filler strip or side panel may be required. The filler strip will act as a spacer between the door case and adjacent cabinet and will prevent interference with cabinet door swing. The width of the opening must include filler panels.

**Note:** This product can be installed as a built-in or used free-standing. The top canopy can be removed for installation below a countertop.

**The cutout depth must be 24"**

The cutout dimensions shown allows for a full door swing and access to the pull-out racks when installed as a built-in.

- The outdoor/indoor refrigerator can be used freestanding.
- Stainless steel top canopy can be removed for built-in installation.
- Vented stainless steel toekick.
