

Long Island

SECTIONAL

Chairs America Living has made it their mission to provide the best possible modular sectionals available. Furniture that can transition with you through life's stages and be used in many different environments. It also provides the flexibility to add on or to be reconfigured as needed.

Our furniture is meant to be lived in, but that doesn't mean it cannot be comfortable, beautiful and long lasting.

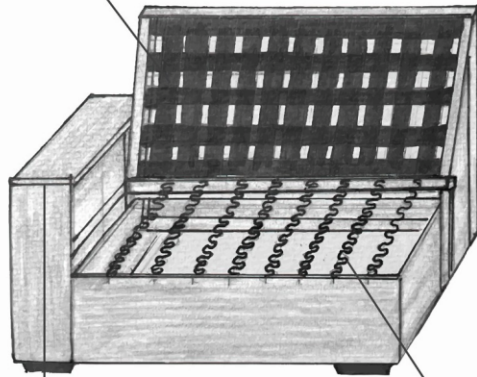

The design is timeless and with the right fabric can fit in any home. Because fabric and color are very important in making a setting right, we offer loads of covers and color options.

Sit in our furniture and we think you'll fall in love with it.

Features

Our exclusive, trademarked "Memory Flex CUSHION" blends the attributes of Premium High Resilience foam, plush Memory Foam and hypoallergenic polyester fiber. These quality cushions provide inviting comfort day after day and will deliver years of service. All cushions, even the chaises, are reversible.

Pirelli webbing for comfortable back support

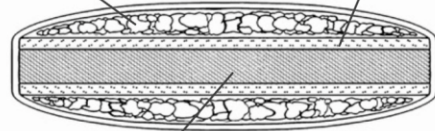

Frames hand assembled with state-of-the-art metal fasteners

Sinuuous wire springs with lateral supports

Premium polyester fiber

Plush memory foam

Long lasting high resilience foam core

The plush backs are filled with an inner bag containing high loft 7.9 denier white Nanya fiber, some of the finest available. Each bag is sewn into baffles to prevent the fiber from settling. Extra fiber is available should the customer want to firm up the backs.

The frames are made from America Hardwood and Hardwood plywood, no composite woods, that has been sourced from sustainable forests. The frames are hand assembled using state of the art metal fasteners. All frames have an ergonomically pitched back with stretch webbing for ultimate comfort.

Fabrics

Chairs America LIVING offers over 20 different base cloths for our sectional pieces.

Our base fabrics are all proven durable covers. Some are also "Performance Covers", like REVOLUTION and CRYPTON which are made to resist staining and are backed by the fabric manufacturer.
