

4-Series Control System

Getting Started

Scan the QR code to view the Quick Start Guide.

www.crestron.com/docs/8507

For additional information on the Crestron® CP4, visit www.crestron.com/model/6510420.

For additional information on the Crestron CP4N, visit www.crestron.com/model/6510419.

Pair with Apple® HomeKit® Technology

The CP4/CP4N can be paired with Apple® HomeKit® technology to enable communication between the control system and Apple HomeKit devices and accessories.

To pair the CP4/CP4N with an Apple HomeKit system, open the Apple Home app on an iOS® device, and then use the device camera to scan the QR code provided below.

NOTE: To ensure the control system is paired with the homeowner's Apple HomeKit system, the QR code must be scanned by an iOS device associated with the homeowner's Apple ID.

- For more information on pairing the device with an Apple HomeKit system, refer to <https://support.apple.com/en-us/HT204893>.
- For more information on integrating the control system with Apple HomeKit devices, refer to www.crestron.com/Partners/Integrated-Partners/Apple.

Certification and Compliance

Regulatory Model: M201903003

Federal Communications Commission (FCC) Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following conditions:

(1) This device may not cause harmful interference and (2) this device must accept any interference received, including interference that may cause undesired operation.

CAUTION: Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Industry Canada (IC) Compliance Statement

CAN ICES-3 (B)/NMB-3(B)

As of the date of manufacture, the product has been tested and found to comply with specifications for CE marking.

This product is Listed to applicable UL® Standards and requirements tested by Underwriters Laboratories Inc.

Ce produit est homologué selon les normes et les exigences UL applicables par Underwriters Laboratories Inc.

Legal
