STEP 2

FOR HANGING MIRROR

The diagram illustrates the second step of hanging a mirror. It features a main perspective view of a mirror being positioned against a wall. A bracket is attached to the back of the mirror, and a screw is shown being inserted into the wall. Two circular callouts provide detailed views of the process. The first callout shows a screw (9) being inserted into a bracket (F). The second callout shows a screw (9) being tightened into a bracket (F) on the wall. The word 'WALL' is written on the wall surface.
