SKU: P375-BR-K3

Availability: Expected Availability Date:

Type: Beds

Category: Bedroom

Collection: Quincy

Color Family: Beige

Material: Fabric

Style: Transitional

Bed Size: King

Finish: Blacks

Brand: PFC

Product Description: A small-scale, transitional design with hints of mid-century modern elements offers the perfect blend of comfort, style, and functionality with our Quincy King Upholstered Bed. The dark, rich Molasses finish adds warmth and texture while nodding to the timeless appeal of the mid-century design. An elevated upholstered headboard with an elongated geometrical pattern throughout brings visual interest and style, and the simplicity of the low-profile footboard makes it suitable for a wide range of decor schemes. This bed enhances any bedroom space with its understated elegance and modern charm.

Collection Features: Quincy is a smaller-scale, casual, transitional collection with linear, classic silhouettes. Crafted with quartered ash veneers in a molasses finish, the minimalist design is accentuated by a heavy bevel on the pilasters and custom bar pull hardware in a soft bronze finish. Hints of Mid-century modern styling includes architectural elements and beveled case designs.

Status: Active

Finish: The dark tone of the Molasses finish is versatile and pairs well with various bedroom décor styles

Features: Sleek, streamlined silhouettes combined with mid-century modern, transitional design elements create a sense of simplicity and elegance

Boasts clean lines and a small-scale profile, making it practical for casual living

The generously padded upholstered panel is adorned with a geometrical pattern, lending a modern, contemporary aesthetic. A low profile footboard with a beveled frame and tapered feet add to the minimalist aesthetic

Material: Ash Wood Veneers

Frame Construction: Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board,

made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
