

Description

The HCX-SLN501 HDBaseT Extender Set combines the HTX-SLN501 Transmitter and the HRX-SLN501 Receiver into a single convenient, cost-effective audio and video distribution package.

Transmit

Designed per HDBaseT Alliance specifications the HTX-SLN501 Transmitter is capable of transmitting audio and video, IR, RS-232 control, Ethernet and Power up to 328 feet (100 meter) via a single Cat 5e/6/7 cable to the HRX-SLN501 or any HDBaseT-Compliant endpoint.

Utilizing Power over HDBaseT (PoH) the HTX-SLN501 supplies power to the HRX-SLN501 via the same Cat 5e/6/7 cable as the audio, video, IP, and control signals. This eliminates the need for a second power supply at the endpoint.

Receive

As part of a complete Savant HDBaseT 5Play solution the HRX-SLN501 receives audio and video, IR, RS-232 control, Ethernet and Power up to 328 feet (100 meter) from an HTX-SLN501 or a SmartLink HDMI Matrix Switch (SLN-84BT / SLN-86BT / SLN-88BT).

Feature Summary

- Advanced HDMI® over HDBaseT for residential and commercial markets
- Extends HD source signals up to 328 feet (100 meters)
- Digitally transmits Audio, Video, IR, RS-232, and Ethernet over a single Cat 5e/6/7 cable
- Supports HDMI, HDCP, and 3D TV pass-through
- Dolby® TrueHD™ and DTS-HD Master Audio™ pass-through
- Supports Power over HDBaseT (PoH)
- Front panel status Indicator
- Integrated control and Ethernet ports for local devices
