## Kanti Pedestal

1000-0156

*In Stock*

---

Overall: 36"h x 11.75"dia.

Finish: Graphite

Materials: Iron

Item Weight: 25 lbs.

Made of iron in a graphite finish with a subtle ombré effect, the surface of the Kanti Pedestal darkens as it moves toward the bottom. The gray pedestal, that will support a sculpture or an oversized vase, has an ample dose of personality for an accessory because its fluted shape brings both the sides and the top added interest. The bottom of the pedestal is covered in felt to keep it from damaging any underlying surfaces.
