**Product Description:** Upgrade your dining experience with our Ashby Place Leg Dining Table. A spacious rectangular tabletop and shaped apron add a touch of refinement and visual interest, while four tapered legs at each corner provide stability and support. Two 18-inch leaves extend the table to 110 inches, offering ample room for family dinners, holiday feasts, and intimate gatherings with friends. Its versatile, adaptable design transitions between different dining settings, making every meal a memorable occasion.

**Collection Features:** Ashby Place displays a sophisticated chic feel with comfortable classic silhouettes, making it suitable for various interior design styles. Quartered ash veneers finished in a soothing neutral gray complement the cool, clean marble and soft silver metal accents. This collection brings a sense of refinement and character to any living space, creating a cohesive and inviting aesthetic.

**Status:** Active

**Finish:** The neutral finish seamlessly blends into various design schemes, working well with bold or neutral color palettes

**Features:** Transitional, chic styling combined with classic elements emphasize simplicity and understated elegance  
Two 18-inch leaves and a shaped apron effortlessly accommodates your seating needs, while complementing your home's aesthetic  
Metal ferrules and hardware in a nickel finish add a touch of sophistication to the overall design

**Material:** Ash Wood Veneers

**Frame Construction:** Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
