Lila Console Table Brown

A console with a bullnose edge worth running a hand along. A thick top rolls into a smooth bullnose edge on each short end, giving the Lila console a substantial, considered profile against an entry wall. Warm grain runs across the matte top, while a metal connecting plate with a finished back keeps the long console steady and clean from every angle. Long, low, and finished on all sides — no bad angle here.

- Bullnose Edge: A thick top rolls into a smooth bullnose edge on both short ends, giving the console a substantial, hand-finished profile that reads quality.
- Solid Acacia Base: A solid acacia base grounds the long top with natural grain and warm tone, bringing durable wood character to an entry or living room.
- Finished All Around: A metal connecting plate with a finished back keeps the console steady and clean from every angle, so it works floating in a room.
- Everyday Ready: A stain-resistant surface stands up to keys, mail, and daily drop-offs, keeping the long top looking clean and considered over time.
