❄	The automatic defrost system works by automatically defrosting at regular intervals eliminating the need to defrost altogether.

Power saving mode: The power saving mode allows you to disable the refrigerator and keep the freezer working.

Touch controls: Easy to use touch controls allow the appliance to be programmed at the touch of a button.

Ventilated: Forced distribution of cold air in the refrigerator compartment, which allows even temperature distribution within the fridge.

LED interior lighting: is a more energy efficient and long lasting way of illuminating the interior of the appliance.
