Availability: Contact us for availability details

Type: Cabinets, Curio Cabinets

Category: Living Room

Collection: Accents

Number of Shelves: 4

Style: Modern/Contemporary

Finish: Medium Wood

Brand: PFC

Product Description: This stunning 4-Door Curio Cabinet is an excellent addition to your living space. Constructed from durable mango wood, it features four wood-framed reeded glass doors that slide up, revealing an open storage area perfect for showcasing your favorite items. The contemporary style and rich finish make it a versatile piece that can enhance any decor. With its solid construction and thoughtful design, this cabinet offers functionality and adds a touch of sophistication to your home.

Collection Features: Our exquisite collection of accent pieces featuring stunning curios, door cabinets, and pedestals add a touch of elegance to any space. Whether showcasing your favorite collectibles in a sleek curio or adding functional beauty with a chic cabinet or chest, our curated selection blends timeless craftsmanship with modern style. Each piece offers versatile storage and display solutions that complement any room.

Status: Active

Finish: The dark brown wood finish radiates natural beauty and rustic charm

Features: Clean lines and a minimalist design with a focus on functionality and elegance
The clever lift-and-slide mechanism allows the doors to effortlessly glide open and tuck back, ensuring seamless access while saving space
Four wood-framed introduces texture and a dynamic visual element that obscures the view of the interior

Material: Mango Wood

Frame Construction: Pulaski uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
