Type: Chairs, Dining Chairs, Side Chairs

Category: Casual Dining

Collection: Catalina

Color Family: Beige

Motion Type: Stationary

Material: Fabric

Style: Transitional

Finish: Light Wood

Brand: Drew & Jonathan Home

Product Description: Slightly more formal than their slatted back counterparts, the Catalina Upholstered Side Chairs feature seats and backs that are fully upholstered in breezy, cream textured fabric. Sold in sets of two, the chairs' cut-out design at the lower back adds an element of visual interest, while the distressed wooden seat frame harkens back to the collection's coastal inspiration. Perfect as a dining room staple, these armless chairs can also be repurposed into additional as-needed seating in other areas of the home! Mix and match the Catalina Upholstered Side Chairs with other pieces in the Catalina Collection for coordinating dining room style.

Collection Features: The Catalina collection offers a casual design profile that mirrors Drew and Jonathan's current Southern California lifestyles. The collection includes low profiles with classic angles and natural finishes. Highlights of the dining pieces include three tables: a round style with an open slatted base, a casual style with a "racetrack-shaped" top and open pedestal base, and a bar-height table. Dining chair choices include an upholstered pub armchair, an upholstered dining bench, and upholstered arm- and side chairs. Rounding out the case good assortment is a buffet and accent cabinet, a coffee table with glass top and two etagere styles.

Finish: Light wood distressed finish

Features: Casual textured upholstered seat and back
Cut-out design at lower seat back

Material: Split Heart Oak Veneers and Fabric

Frame Construction: Drew & Jonathan Home uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
