Item Weight: 10.5 lb

The Circle of Life Medium is made from a single solid piece of white marble that is entirely carved and polished by hand. With white marble, life is a cycle of purity that is reflected in this piece with its modern lines enhanced by the contemporary stand in a nickel finish. This is an artisanal piece, as it takes a marble carver many hours and great skill to reach the perfection achieved. We also offer this sculpture in a large size on a taller stand.
