Product Description: Authentic craftsmanship gets a fresh, updated vibe with the Chapman Display Cabinet made of White Oak Veneers in a warm brown Sorrel finish, seeded glass, mirror and metal. Design details include 2 wood-framed doors with antique seeded glass at the top and wood doors on the bottom, shaped metal ferrules, geometric pewter hardware and handcrafted joinery. There are 3 adjustable wood-framed glass shelves with plate grooves in the top section and an antique mirror glass back, and one adjustable wood shelf behind the bottom doors.

Collection Features: Hooker Furniture has launched the Chapman collection, a smaller-scaled, casual-contemporary whole home group. The 55-piece collection features a curated mix of materials that present an updated look inspired by downtown urban living. Over the past several years, Hooker Furniture has embarked on a transformation of our product line, adding more modern and updated styles to our portfolio to reach a younger demographic. Chapman aligns perfectly with this strategy, filling a style gap in our portfolio with a collection that offers contemporary styling with a relaxed, casual feel. Designed for consumers who may live in loft-style spaces or homes with open concept floorplans, pieces are smaller in scale, yet are thoughtfully designed to provide plenty of storage and exude a sophisticated style.

Status: Active

Finish: The Sorrel finish is features oak veneers in a warm brown finish. Custom hardware and unique hand-hammered metal accents in a forged pewter finish add to the contemporary style. Distressing includes sandblasting, wirebrushings, worm holes, and rock distressing.

Features: Two wood-framed doors with antique seeded glass at top
Two wood doors at bottom
Three adjustable wood-framed glass shelves with plate grooves in top section
One adjustable wood shelf behind bottom doors
Antique mirror glass back
Levelers

Material: White Oak Veneers, Glass, Seeded Glass, Mirror and Metal

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
