

### **Soft and Firm Support**

The gel grid design allows for multi-directional movement, meaning that it adjusts differently to give you more or less support where you need it.

### **Motion Isolation**

With thousands of grids that are able to shift in different directions, you can sleep soundly in your own little world of comfort, even if there is movement on the mattress.

### **Breathable Comfort**

Airflow is key to keeping an even temperature. The open cell design allows for air to move through the layers of the mattress so you don't end up with hot spots while you sleep.

### **Integra-mesh**

Maintains the integrity of the grid while allowing the grid to shift and adjust while you sleep for maximum comfort.

## WHAT IS THE GEL GRID

It combines science, luxury and technology in a futuristic layer designed to contour to your body.

Hand-Tufted Tencel™ Fabric:

## PINNACLE OF QUALITY

The hallmark of a luxury mattress. We take the extra time to tuft by hand so that you not only sleep longer but your mattress will also last longer.

Innovative Gel Grid:

## CUSTOMIZED SUPPORT

Thousands of grids continuously adjusting to provide support where you need it. Open cell design allows airflow throughout the mattress to keep you cool.

Supportive Natural Latex:

## PRESSURE RELIEVING

Ultimate pressure relief while providing a weightless feel. Environmentally-friendly, hypo-allergenic, anti-microbial, and extremely breathable.

Titanium Memory Foam:

## COOLER DEEPER SLEEP

Titanium infused memory foam regulates temperature for deeper sleep by drawing excess heat away from your body while absorbing pressure so you can sleep comfortably and cool.

Individually Wrapped Coils:

## PERSONALIZED COMFORT

9-Series coil system: Independent coils adjust to your body's unique shape for personalized pressure relief and comfort. Tri-Zoned for back support.
