Product Description: Organic with a touch of glam, the Nolita Two-Door Cabinet is crafted of Oak Veneers, resin and metal and combines a charcoal finish with a medallion-like insert, metal teardrop pulls and a base in a pewter finish, along with a contrasting brown stained interior. The two doors have soft-close hinges. The interior is painted gray, and there's one adjustable shelf and a ventilated back panel.

Collection Features: Come closer to Melange, and you will discover something unexpected, an eclectic blending of colors, textures and materials in a vibrant collection of one-of-a-kind artistic pieces.

Features: Two doors with soft-close hinges

One adjustable shelf

Ventilated back panel

Levelers

Material: Oak Veneers, Resin and Metal

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
