- Real Capacity - Get the most hot showers from the only water heater that holds a true 50 gallons of water (Compared to 50 gallon electric steel tank water heaters per DOE rated gallon capacity)
- Leading Performance - Live comfortably with this best in class unit that delivers 76 gallons of hot water in the first hour (Measured through DOE First Hour Rating)
- Household Size - Provide hot water for the whole family of 3 to 5 persons
- Quick Recovery - Two 5500W heating elements quickly increase water temperature for hot water when you need it
- Stainless Steel Heating Elements - Ultra-durable stainless-steel heating elements resist rust and corrosion
- Inlet Tube - Replenishes water from the bottom of the tank to maximize hot water delivery
- Brass Drain Valve - Rust-proof construction can be counted on to provide long-lasting service
- Easy Set Up - Replace your old water heater quickly and easily using standard water and electrical connections
- Adjustable Thermostat - Change temperature to your desired setting
