

Leather Selection

Step 1 Leathers

Breyer

Breyer is a semi-aniline dyed leather with a protective top coating finish applied. The protective finish is water repellent which helps protect the leather from spills and soiling while still maintaining a soft and supple feel.

Supreme

Supreme is a premium, semi-corrected top grain leather with a protective topcoat. Remarkably soft to the touch and smooth in appearance, Supreme is a great leather for high traffic areas and for everyday use.

Step 2 Leathers

Havana

Havana is a top grain leather that offers depth, texture and a slight sheen for everyday use. A special finishing is used to create softness and roundness and to obtain a natural touch to the hand. A slight protective topcoat gives the hides a resistant yet brilliant finish.

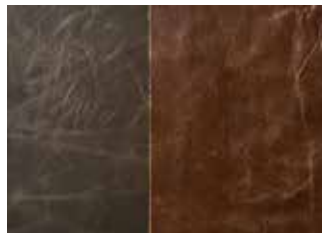

Iceberg

Iceberg is an aniline dyed leather with a waxy finish and slight sheen applied to the hides. This leather exhibits a slight pull effect which allow the natural grains and markings of each hide to come to life while enhancing the colour variations.

Maverick

Maverick exhibits a subtle distressed or vintage look created by a waxy overlay that changes shades during the upholstery process when stretched. An extremely soft leather, Maverick is an "old world" leather that accommodates various styles.

Oklahoma

Oklahoma is an aniline dyed leather with a wax finish applied giving it a rich mix of colour as well as colour burst. Each hide will have its own characteristics and colour variance allowing the natural effects of the hide to be visible.

Roxy

Roxy has a unique softness and natural hand similar to a full aniline with a slight luster making it the perfect leather for upholstered goods. A leather that exhibits moderate oil pull-up effect which reveals the natural grains and markings of each hide.

Texas

Texas is a natural grain leather that has been aniline dyed and hand buffed to achieve a unique vintage look. Ideal for creating a rustic look without compromising a soft and natural hand.

Verona

Verona is a semi-aniline leather with a sauvage (two-tone) finish. It also features a rich luster, slight sheen and softness rendering a smooth finish.

Step 3 Leathers

Bistro

Bistro is an aniline dyed leather with a saturation of oil and wax allowing for a great burst of colour and pull-up effect with a soft waxy hand. The natural characteristics of each hide will be evident and colour variance is common with Bistro leather.

Cimaroon

Cimaroon is a full bodied leather, aniline dyed and buffed to achieve a unique vintage look without compromising a soft and natural hand. Cimaroon offers striking contrasts in colour and variance should be expected.

Heavenly

Heavenly is a semi-aniline natural grained leather that is achieved by a special milling process that allows the grain to surface naturally, providing the hide with a soft, supple hand and natural pebbled texture. Natural characteristics of each hide such as, wrinkles, healed scars and skin folds will be evident in this leather.

Keller

Keller is a semi-aniline leather with a waxy crackled effect. The distinctive qualities of this product are its smooth, silky hand feel and its gentle matte finish. Keller has been designed to resist scratching and wear due to time.

Macchiato

Macchiato is a semi-aniline leather demonstrating variations in colour, showcasing the depth and dimension of this leather due to the hand wipe application. Smooth and buttery to the touch, this leather is soft with a natural looking grain and rich hand wipe effect.

Nuvo

Nuvo is a semi-aniline leather highlighted by natural grain variances and slight colour variations which enhance the natural beauty of the leather. Nuvo is very soft to the touch with a buttery feel notwithstanding the presence of natural markings on the hide.

Wilderness

Wilderness is an aniline oil pull-up leather with a rich, matte finish. The natural characteristics of these hides will be evident and each hide will display its own uniqueness. Due to the nature of this leather, it is very common to notice colour variations and more variations will develop over usage. A truly natural leather which is susceptible to soiling and markings.

Leather Selection

Step 4 Leathers

Brompton

Brompton is an aniline wax leather dyed with a combination of wax and oil and colour that is impregnated into the leather that will cause the colour to burst as you pull, stretch and handle the leather. This leather exhibits all the characteristics of a pull-up leather and needs to be understood that no two hides are alike and colour variation is a normal occurrence.

Buff Spruce

Buff Spruce has a natural feel similar to that of a full aniline hide because of the oil applied to the leather. A very soft and luxurious leather that will reflect nature's beauty because of the markings inherent in each hide which are to be appreciated.

Fleamarket

Fleamarket is an aniline oil leather with a natural grain, oils are applied to the hides during the tanning and finishing processes rendering a buttery soft leather. Nature's own markings on each hide will be evident and should be appreciated as part of the beauty of this leather.

Macchiato

Old Attic is an aniline oil leather with rich colour bursts that surface after upholstering and over time through usage. Colour variations and natural markings are to be expected with Old Attic leather.

Sallie

Sallie is an aniline buffed leather which exhibits all the natural characteristics of the hides including healed scars, skin folds and natural grain variations. The buffing creates a vintage look while maintaining a soft supple feel.

Leather Selection

Step 5 Leathers

Berkshire

Berkshire is an aniline oil leather which renders a beautiful traditional and rustic look once upholstered. As the leather stretches and becomes worn the undertone colour of the leather bursts through and brings the leather to life. Due to the nature of this leather, the natural characteristics of the hide will be visible as well as the variance in colours.

Caress

Caress is an aniline oil pull-up leather rich with infused colour. Caress has a unique finishing classifying it as one of the most natural of leathers. Matte in finish with a firm strong character upon upholstery and buttery soft feeling to the touch.

Dallas

Dallas is a rich wax pull-up that has a distinctive look when pulled, producing a brilliant burst and change of colour. A vibrant sheen and delicate surface, Dallas is the leather of choice for an elegant and luxurious look.

Legends

The Legends leather collection consists of aniline dyes and waxes which are hand rubbed into each hide creating a marvelous two tone effect. As a result, each hide is different and creates a unique look showcasing natural scars and imperfections along with colour variations.

Mustang

Mustang is a full grain leather with a soft wax finish that exudes sophisticated elegance. Mustang leather is gently milled to offer a subtle break that highlights the natural tones in the smooth matte finish which will develop a patina and an enhanced look over time.
