

KELSEY COFFEE TABLE

Offered in either rectangular (shown here) or square, the Kelsey Coffee Table is designed around the classic French Cabriole leg. The graceful curves of the leg seem to naturally extend from the soft radius of the top on this solid wood coffee table. As an added benefit, the cottage white finish and solid wood construction make this an excellent choice for active homes as the antiqued character of the finish and solid wood materials offer a little more grace when the normal bumps and bruises of a living space are encountered.
