Entertainment TV Mirror

USER MANUAL

ENT4

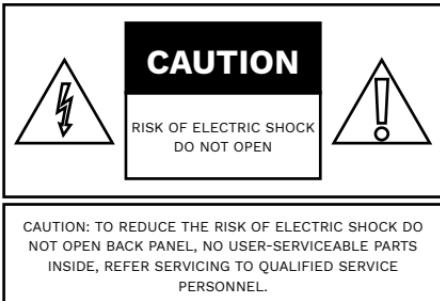

WARNING: READ ALL INSTRUCTIONS BEFORE ATTEMPTING TO INSTALL OR SERVICE THIS PRODUCT.

This symbol is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

This symbol is intended to alert the user to the presence of important operating and maintenance instructions in the literature accompanying the appliance.

Warnings:

Do not handle or remove your display from the packaging until it is ready to be installed.
To avoid damage to the display, only transport it in a vertical position.
It is highly recommended that at least two (2) persons assist in the installation of the display.

Do not let metal pieces or objects of any kind fall into the display. High voltage flows in the product, and inserting an object can cause electric shock and/or short internal parts.

To prevent fire, never place any type of candle or flames on the top or near the display.

To prevent fire or shock hazard, do not place the AC cord under the display or other heavy items.

Power Lines

An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to keep from touching such power lines or circuits as

contact with them might be fatal.

Accessories

Do not use accessories not specifically recommended by the manufacturer. Use of improper attachments can result in accidents.

AVERTISSEMENT: LIRE TOUTES LES INSTRUCTIONS AVANT D'INSTALLER OU SERVICE CE PRODUIT.

Ce symbole est destiné à alerter l'utilisateur de la présence d'une «tension dangereuse» non isolée à l'intérieur de l'enceinte du produit qui peut être d'une amplitude suffisante pour constituer un risque de choc électrique pour les personnes.

Ce symbole est destiné à alerter l'utilisateur de la présence d'instructions importantes d'utilisation et de maintenance dans la documentation accompagnant l'appareil.

Avertissements:

Ne manipulez pas et ne retirez pas votre écran de son emballage tant qu'il n'est pas prêt à être installé.

Pour éviter d'endommager l'écran, transportez-le uniquement en position verticale.

Il est fortement recommandé qu'au moins deux (2) personnes aident à l'installation de l'écran.

Ne laissez pas de morceaux de métal ou d'objets de toute sorte tomber dans la moniteur. Une tension élevée circule dans le produit et l'insertion d'un objet peut provoquer un choc électrique et / ou un court-circuit des pièces internes.

Pour éviter les incendies, ne placez jamais de bougies ni de flammes sur le dessus ou à proximité du moniteur.

Pour éviter tout risque d'incendie ou d'électrocution, ne placez pas le cordon d'alimentation sous le moniteur ou d'autres objets lourds.

Les lignes électriques

Une antenne extérieure ne doit pas être située à proximité de lignes électriques aériennes ou d'autres circuits d'éclairage ou de circuits électriques, ni à un endroit où elle pourrait tomber dans de telles lignes ou circuits. Lorsque vous installez une antenne extérieure, veillez à ne pas toucher ces lignes ou circuits électriques, car tout

contact avec ces derniers pourrait être fatal.

Accessoires

N'utilisez pas d'accessoires non spécifiquement recommandés par le fabricant. L'utilisation d'accessoires inappropriés peut entraîner des accidents.

WARNINGS

Never place a television set in an unstable location. A television set may fall, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- Using cabinets or stands recommended by the manufacturer of the television set.
- Only using furniture that can safely support the television set.
- Ensuring the television set is not overhanging the edge of the supporting furniture.
- Not placing the television set on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television set to a suitable support.
- Not placing the television set on cloth or other materials that may be located between the television set and supporting furniture.
- Educating children about the dangers of climbing on furniture to reach the television set or its controls.

If your existing television set is being retained and relocated, the same considerations as above should be applied.

WARNING: Cancer and Reproductive Harm: www.p65warnings.ca.gov.

ATTENTION

Ne placez jamais un téléviseur dans un endroit instable. Un téléviseur peut tomber

et causer des blessures graves ou mortelles. Beaucoup de blessures, en particulier aux enfants, peuvent être évités en prenant des précautions simples telles que:

- *Utilisation des armoires ou des supports recommandés par le fabricant du téléviseur.*
- *Seulement en utilisant des meubles qui peuvent supporter en toute sécurité le téléviseur.*
- *Assurer le téléviseur est pas surplombant le bord du meuble de support.*
- *Non placer le téléviseur sur un grand meuble (par exemple, des armoires ou des bibliothèques) sans accrocher à la fois les meubles et le téléviseur sur un support approprié.*
- *Non placer le téléviseur sur le tissu ou d'autres matériaux qui peuvent être situés entre le téléviseur et le mobilier de soutien.*
- *Éduquer les enfants sur les dangers de grimper sur un meuble pour atteindre le téléviseur ou ses commandes.*

Si votre téléviseur existant est conservé et transféré, les mêmes considérations que ci-dessus doivent être appliquées.

Specifications of this product are subject to unannounced changes; this manual may thus not reflect the current technical status.

Spécifications de ce produit sont sujettes à modifications sans préavis; ce manuel ne peut donc pas tenir compte de l'état de la technique actuelle.

FCC Supplier's Declaration of Conformity

Séura Entertainment
ENT4-65, ENT4-75

This device complies with part 15 of the FCC Rules. Operation is subject to the follow two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

PAN International
Address: 48008 Fremont Blvd, Fremont, CA 94538 United States
Phone number: 510-623-3810

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and any part of your body.

WARNINGS

To reduce the risk of fire, electrical shock and other injuries, keep these safety precautions in mind when installing, using, and maintaining your TV. The socket-outlet should be installed near the equipment and be easily accessible. The display should be connected to a grounded GFCI protected main socket outlet.

WARNING: If you manipulate against the recommended usage, serious injury or death to user may result.

AVERTISSEMENTS

Pour réduire les risques d'incendie, d'électrocution et autres blessures, gardez ces précautions de sécurité à l'esprit lors de l'installation, de l'utilisation et de l'entretien de votre téléviseur. La prise de courant doit être installée à proximité de l'équipement et être facilement accessible. L'écran doit être connecté à une prise de courant principale protégée par GFCI mise à la terre.

Avertissement: Si vous manipulez contre l'utilisation recommandée, des blessures graves ou la mort de l'utilisateur peuvent en résulter.

Important Safety Instructions

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Clean only with a dry cloth.
6. Do not block any of the ventilation openings. Install in accordance with the manufacturer's instructions.
7. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
8. Do not defeat the safety purpose of the polarized or grounding type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. When the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
9. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
10. Only use the attachments/accessories specified by the manufacturer.
11. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
12. Unplug this apparatus during lightning storms or when unused for long periods of time.
13. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
14. To reduce the risk of fire or electric shock, do not expose the inside of this apparatus to rain or moisture. The inside of this apparatus shall not be exposed to dripping or splashing.
15. The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.
16. The apparatus shall be connected to a MAINS socket outlet with a protective earthing connection. Where the MAINS plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.
17. The disconnect device shall remain readily operable.
18. The socket-outlet shall be installed near the equipment and shall be easily accessible.
19. Inspect the desired location for installation and be aware of all electrical wiring pathways, water pipes, gas lines, or other potentially hazardous conditions that may exist to protect from accidental damage during creation of on-site conditions.
20. Ensure all required electrical specifications are adhered to and have been installed by the appropriate individuals and are code approved.
21. Ensure all framing requirements, if needed, have been completed to building code and pose no structural issues.
22. It is REQUIRED that this product is plugged into an electrical outlet protected by a Ground Fault Circuit Interrupter (GFCI) to protect against electric shock, fire, and/or injury. Failure to do so will void any warranty for this product.
23. Only qualified individuals should attempt to service the product. Removing covers can expose you to high voltage and other dangerous conditions.
24. Do not overload AC outlets or extension cords. Overloading can cause fire or electric shock.
25. Close adult supervision is necessary when any product is used by or near children.
26. Do not operate any product with a damaged cord or plug or operate it after the appliance malfunctions or has been damaged in any manner.
27. To electrically disconnect the product, turn OFF the product, then remove the electrical power plug from the outlet.
28. This Séura product is intended for use indoors.
29. If you notice any smoke or scorched smell near the product, unplug power cord and refer to qualified personnel for service and/or repair.
30. Do not use or place any combustible or flammable substances near the product.
31. Do not use this product for other than intended use.
32. Do not immerse this product in water.

Consignes De Sécurité Importantes

1. *Lisez ces instructions.*
2. *Conservez ces instructions.*
3. *Respectez tous les avertissements.*
4. *Suivez toutes les instructions.*
5. *Nettoyer uniquement avec un chiffon sec.*
6. *Ne pas bloquer les ouvertures de ventilation. Installez conformément aux instructions du fabricant.*
7. *Ne pas installer près de sources de chaleur telles que des radiateurs, registres de chaleur, poêles ou autres appareils (y compris les amplificateurs) qui produisent de la chaleur.*
8. *Ne pas contourner le dispositif de sécurité de la fiche polarisée ou mise à la terre. Une fiche polarisée possède deux lames dont une plus large que l'autre. Une prise de terre a deux lames et une troisième broche de mise à la terre. La lame large ou la troisième broche est fournie pour votre sécurité. Si la fiche fournie ne rentre pas dans votre prise, consultez un électricien pour remplacer la prise obsolète.*
9. *Protégez le cordon d'alimentation d'être piétiné ou pincé, en particulier au niveau des fiches, des prises de courant, et le point où ils sortent de l'appareil.*
10. *Utilisez uniquement les fixations / accessoires spécifiés par le fabricant.*
11. *Utilisez uniquement avec un chariot, un support, un trépied, un support ou une table spécifiée par le fabricant ou vendu avec l'appareil. Quand un chariot est utilisé, faites attention lorsque vous déplacez l'ensemble chariot / appareil pour éviter les blessures en cas de chute.*
12. *Débranchez l'appareil en cas d'orage ou lorsqu'il est inutilisé pendant de longues périodes de temps.*
13. *Les travaux de personnel qualifié. Une réparation est nécessaire lorsque l'appareil a été endommagé de quelque façon que ce soit, ou si des objets sont tombés dans l'appareil, l'appareil a été exposé à la pluie ou à l'humidité, ne fonctionne pas normalement, ou est tombé.*
14. *Pour réduire le risque d'incendie ou de choc électrique, ne pas exposer l'intérieur de cet appareil à la pluie ou à l'humidité. L'intérieur de cet appareil ne doit pas être exposé à des gouttes ou des éclaboussures.*
15. *L'appareil ne doit pas être exposé à des gouttes ou des éclaboussures et aucun objet rempli de liquide, comme des vases, ne doit être placé sur l'appareil.*
16. *L'appareil ne doit être relié à une prise secteur dotée d'une connexion de terre de protection. Lorsque la prise du RESEAU D'ALIMENTATION ou une prise placée sur l'appareil est utilisée comme dispositif de déconnexion, ce dispositif doit demeurer aisément accessible.*
17. *Le dispositif de déconnexion doit rester facilement accessible.*
18. *La prise de courant doit être installée près de l'équipement et doit être facilement accessible.*
19. *Inspecter l'emplacement souhaité pour l'installation et être conscient de toutes les voies de câblage électrique, les canalisations d'eau, conduites de gaz, ou d'autres conditions potentiellement dangereuses qui peuvent exister pour protéger contre les dommages accidentels lors de la création des conditions sur place.*
20. *S'assurer que toutes les spécifications électriques requises sont respectées et ont été installés par les personnes appropriées et sont le code approuvé.*
21. *S'assurer que toutes les exigences d'encadrement, si nécessaire, ont été achevés au code du bâtiment et ne posent pas de problèmes structuraux.*
22. *Il est nécessaire que ce produit est branché sur une prise électrique protégée par un disjoncteur de fuite à la terre (GFCI) pour protéger contre les chocs électriques , des incendies et / ou blessures. Ne pas le faire annuler toute garantie pour ce produit.*
23. *Seules les personnes qualifiées doivent tenter de réparer le produit. Le retrait des capots peut vous exposer à de hautes tensions et d'autres situations dangereuses.*
24. *Ne surchargez pas les prises de courant ou les rallonges. Une surcharge peut causer un incendie ou un choc électrique.*
25. *Fermer surveillance d'un adulte est nécessaire lorsque tout appareil est utilisé par ou près des enfants.*
26. *Ne pas utiliser un produit avec un cordon ou une fiche détériorés fonctionner après un mauvais fonctionnement de l'appareil ou a été endommagé d'une manière quelconque.*
27. *Pour débrancher électriquement le produit, éteignez le produit , puis retirez la fiche d'alimentation électrique de la prise.*
28. *Ce produit Séura est destiné à un usage intérieur.*
29. *Si vous remarquez de la fumée ou une odeur de brûlure à proximité du produit, débranchez le cordon d'alimentation et consultez un personnel qualifié pour le service et / ou la réparation.*
30. *N'utilisez ni ne placez aucune substance combustible ou inflammable à proximité du produit.*
31. *N'utilisez pas ce produit pour un usage autre que celui prévu.*
32. *Ne pas plonger ce produit dans l'eau.*

Operation and Storage Requirements

Mount the device in such a way that it is protected against moisture. To prevent fire or electric shock, never allow liquids to enter the unit. The uninstalled product must be stored in dry and well-ventilated rooms, without extreme temperature fluctuations. Heat sources and aggressive active substances may not be stored in the proximity of the device. The required storage temperature is **-24°F to 140°F**. The device must be stored in the complete packaging, as delivered. The product must not operate on average more than twelve (12) hours per day on a permanent or extended periodic basis. The product must have proper, correct and sufficient AC supply voltage.

Screen Health

The 4K liquid crystal panel is a high technology product with 8,294,400 pixels, giving you fine picture details. Occasionally, a few non-active pixels may appear on the screen as a fixed point of blue, green or red. Please note that this does not affect the performance of your product. Pixel errors outside of Séura's specified and permitted area are covered under Séura's limited product warranty. Please inquire directly with Séura Technical Support regarding Séura's Pixel Policy.

Installation Environment

Avoid direct light or sun exposure, direct proximity to heat sources. Do not place any heat sources such as radiators and heat registers, etc. near the monitor. To reduce eye strain, avoid installing the Séura Television Mirror against a bright background such as a window. Position the monitor at the height of your eye level. Position the monitor directly in front of you at a comfortable viewing distance.

Séura's Television Mirrors can weigh up to 240 lbs (fluctuates based on custom mirror size and frame type). Verify that the wall or mounting surface can support the necessary hardware and weight of the television mirror.

Clearance of 1-1/4" is required on the top, sides, and bottom of the product.

IMPORTANT

The display should not be installed directly over a flat surface if heavy or driving rain may puddle and splash up onto the lower portion of the display. Direct sunlight on the display screen will heat internal components and should be avoided.

IMPORTANT

Le moniteur ne doit pas être installé directement sur une surface plane, si de fortes pluies ou de conduite peut flaque d'eau et éclabousser sur la partie inférieure du moniteur. Lumière directe du soleil sur l'écran du moniteur va chauffer les composants internes et devrait être évitée.

Get to know your Séura® Entertainment TV Mirror

If you have questions, call Séura at 1-800-957-3872 to speak to a design expert.

The environment in which the mirror display is installed will affect the product performance. The key factors to consider for proper installation are surroundings and ambient light. Use the following guidelines to maximize the performance of the Séura product:

Type of Lighting

Avoid direct natural sunlight and excessive fluorescent lighting. These conditions will diminish the television brightness and hinder its performance.

DO use ambient or indirect lighting that illuminates the room, not the Mirror Display.

DO use shades or window treatments to block outdoor light that would interfere with picture performance.

DO NOT position lighting directly on the Mirror Display. This will wash out the picture and hinder the product's performance.

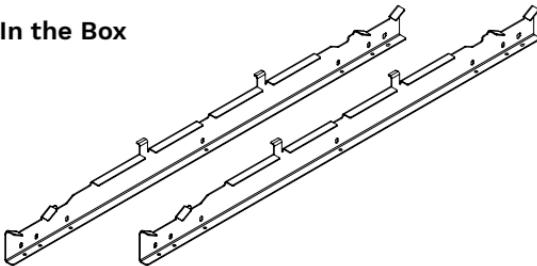

DO NOT position the product opposite bright, untreated windows. Natural lighting will interfere with picture performance.

Parts

Installing Your Entertainment TV Mirror

Séura® Entertainment TV Mirror is designed to be wall-mounted using the included mounting brackets for either surface or recessed mounting. Alternatively, the VESA mounting locations can be used with a compatible wall mount (not included). Verify weight capacity compatibility with any third party mounts.

Refer to the included custom drawing package for specific dimensions and instructions for your custom product.

1. Verify that the wall is prepared appropriately. If the product is an in-wall, or “Recessed” configuration, verify the dimensions of the rough opening.
2. Install mounting brackets according to the dimensions and instructions shown on “Sheet 3” of the included drawing package. Ensure mounting brackets are securely fastened using wood framing members where possible.

NOTE: Take care when moving the product. Always transport the product with at least two people.

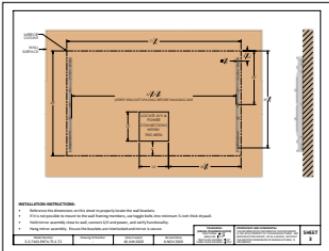

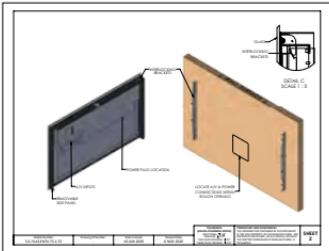

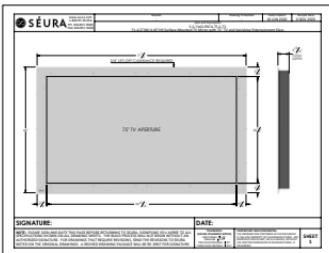

WARNING: Always transport the product in a vertical position. Moving the product in an unsupported horizontal position may result in product flex or damage.

3. Connect power supplies and audio/video components
Test all electrical and electronic devices to verify proper integration and functionality before securely mounting it to the wall is strongly recommended.

4. Position TV Mirror close to wall surface and securely engage mounting brackets.

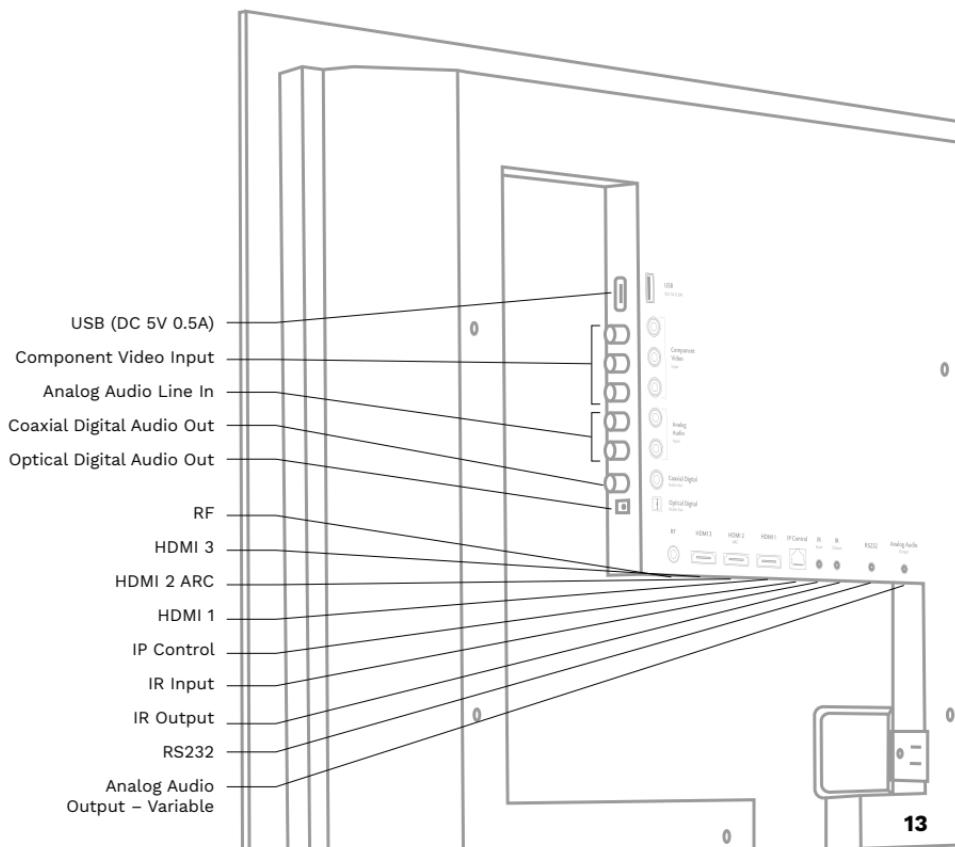

Allow for a $\frac{1}{4}$ " ventilation gap for proper air flow and heat transfer.

5. Check to ensure the TV Mirror is fully engaged and secure to the mounting brackets.
6. Reference the appropriate electronics manual for TV Mirror operating instructions.

Connecting Your Entertainment TV Mirror

To connect a source such as a streaming device or cable box, connect one end of an HDMI cable (or other, cables not included) into an HDMI port on the display and the other end into your device.

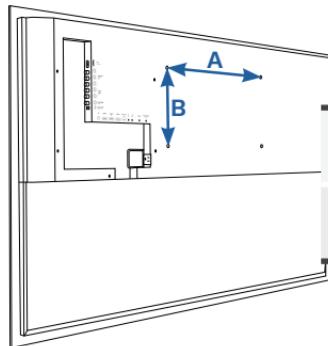

VESA Wall Mounting

Install your wall mount on a solid wall perpendicular to the floor. When attaching to other building materials, please contact your nearest dealer.

If installed on a ceiling or slanted wall, it may fall and result in severe personal injury.

We recommend that you use included or compatible Séura mounting hardware.

	43 INCH ENT4-43	55 INCH ENT4-55	65 INCH ENT4-65	75 INCH ENT4-75
VESA PATTERN (A x B)	300 x 300mm	400 x 200mm	400 x 200mm	400 x 200mm
STANDARD SCREW	M6	M6	M6	M8

NOTE

Screw length needed depends on the wall mount used. For further information, refer to the instructions included with the mount.

Standard dimensions for wall mounting are shown in the above table.

When purchasing a Séura wall mount, a detailed installation manual and all parts necessary for assembly are provided.

Do not use screws longer than the standard dimension, as they may cause damage to the inside to the display.

For wall mounts that do not comply with the VESA standard screw specifications, the length of the screws may differ depending on their specifications.

Do not use screws that do not comply with the VESA standard screw specifications.

Do not fasten the screws too strongly, this may damage the display or cause the display to fall, leading to personal injury. Séura is not liable for these kinds of accidents.

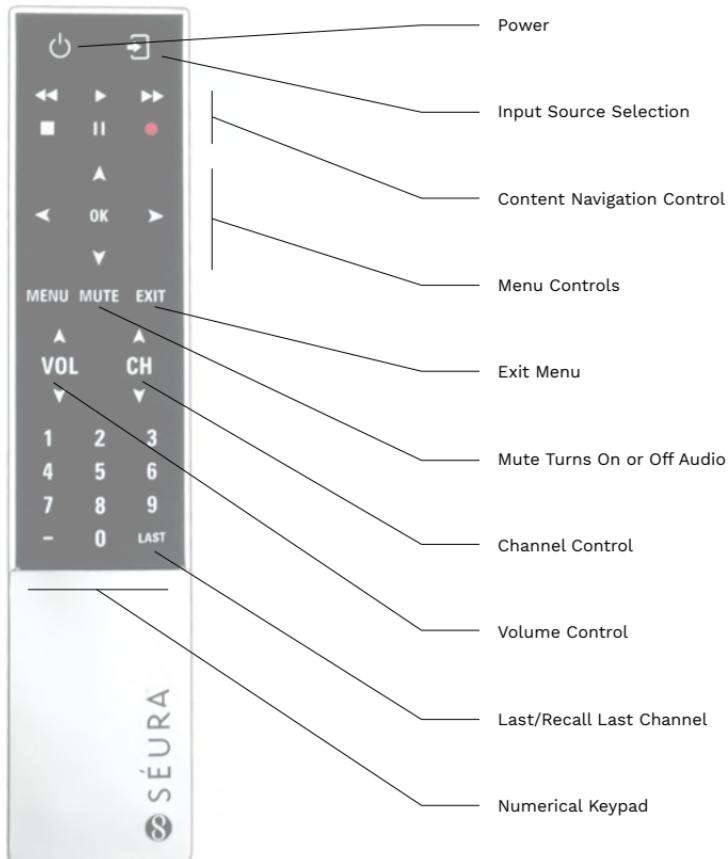

Séura is not liable for display damage or personal injury when a non-VESA or non specified wall mount is used or the consumer fails to follow the display installation instructions.

CAUTION: Do not install your wall mount kit while your display is turned on. It may result in personal injury due to electric shock.

CAUTION: Do not allow children to climb on or hang from the display.

Remote Functions

Troubleshooting

If the product is not working properly, please check the following troubleshooting solutions before you contact customer service:

Challenge	Possible Solution
Will Not Power Up	<ul style="list-style-type: none">• Make sure to check that the AC power cable is connected to an outlet and the display• Make sure that the power outlet is receiving power• Try pressing POWER button on the display to make sure the problem is not the remote. <p>If the display turns on, refer to 'Remote control does not work' troubleshooting guide.</p>
Remote Control Not Working	<ul style="list-style-type: none">• Make sure that there is known working batteries in the remote and in the correct polarity• Make sure there are no obstacles in between the IR receiver and the remote (ex. sunlight or tape)• Try pointing the remote directly at the display from 5 feet away.
Signal Issue	<ul style="list-style-type: none">• Check cable connections to ensure they are connected.• Plug the video source directly into the display which will remove any potential issues associated with an extender or matrix switch device. (if applicable)• Replace cables with known working cables.• Make sure the connected devices are powered ON.• Make sure that the source is on the correct INPUT.• Power cycle the video source device by unplugging the device and plugging the device back in.
No Sound	<ul style="list-style-type: none">• Make sure your cables are connected properly• Make sure the display is not on MUTE / turn up the volume.• Make sure the Digital Audio Settings within the display is not set to OFF• Test the external sound system with another device to ensure that it is working.

during regular business hours: M-F 8:00 am - 4:30 pm, Central Time.

Caring for your Séura® Entertainment TV Mirror

Please follow the guidelines listed for proper Television Mirror care and cleaning:

- The glass surface can be cleaned with any conventional non-ammoniated glass cleaner. Care should be taken to use only a soft lint-free cloth. Apply all cleaners directly to the cloth and not the glass surface. Never saturate the glass surface as residual cleaner may seep behind the glass.
- Stubborn spots can be removed with solvents such as mineral spirits, denatured alcohol, and acetone. Immediately remove solvent and dirt residues per the prescribed methods above with a compatible glass cleaner or water.
