

Organic Wool – A luxurious, flame resistant, water repellent, non-allergenic fiber, New Zealand Joma wool is used in our mattress to maximize your comfort level and ensure breathability.

Dunlop Latex – A soft contouring latex providing long-lasting comfort and extreme durability.

AdvantaGel™ (gel-poly)- Intelligently designed infusion of gel and resilient foam offers a cooler sleep with luxurious comfort and durability.

iFusion™ Technology (gel-visco) - A combination of open cell memory foam and pressure relieving gel resulting in an optimal temperature sleeping surface while still conforming to every curve of your body.

Serene Performance Latex – A highly responsive latex foam, alleviates pressure points while reducing partner motion disturbance.

GelResponse™ Latex - An intelligent eco-friendly combination of pressure relieving, breathable latex with gel beads to provide optimal sleeping surface temperature.

789 ActivEdge Coil System - The core of this unit delivers a consistent sleeping surface that absorbs partner movement while the reinforced steel dual-edge system of encased coils increasing the sleeping surface while eliminating roll-off.

Perfect Form Core – This foam core provides a luxurious balance of comfort, support and durability for an ultimate night's sleep.
