Dimensions

Depth	28"
Height	8 5/16"
Width	47 7/8"

Features & Benefits

Perfect heat Sealed Dual Flow Burners™ deliver cooktop power up to 23,500 BTU (NG models) for seriously fast boiling right down to a precise 140°F full surface simmer with the gentlest of flames.
Precise control From the highest to the lowest temperatures you get total control with halo-illuminated cooktop dials. A precise full surface simmer is delivered across all burners.
Easy cleaning These cooktops have sealed burners and a single sheet cooking surface which, combined with a commercial-style stainless steel finish and dishwasher-safe grates, allow easy cleaning.
Information at a glance LED halo control dials provide information at a glance and assist in alerting you if any burners are accidentally left on.
Cooking flexibility The continuous surface grates are designed for pots and pans to move safely across the cooktop. Full coverage, deep-platform style grates are designed so heat goes directly onto the pot rather than the grates themselves, for a faster boil and energy efficiency.

Designed to match Built to last with distinctive, bold styling, this cooktop is designed to match the Fisher & Paykel Professional style family of appliances.
