Ella Outdoor Dining Chair Charcoal Set Of Two

Oval-inspired, but make it subtle. Ella starts with a foundational form and then cleverly edits it down—so you feel the curve without staring at it. The result is a dining chair that looks sculpted, not obvious, and feels easy in a modern outdoor mix. Twist synthetic hyacinth brings texture, an aluminum frame keeps things light, and the charcoal finish adds a little edge. Quietly different, confidently useful.

- Soft-Form Shape: A quietly oval-led silhouette creates a smooth, sculptural profile that feels intentional from every angle, without turning into a design lecture.
- All-Outdoor Materials: Twist synthetic hyacinth wraps an aluminum frame, pairing woven texture with a lightweight core that suits open-air dining setups.
- Clean, Steady Frame: Aluminum construction gives the chair a stable foundation while keeping the overall look visually light and easy to move around.
- Charcoal Finish: A deeper tone that grounds bright patios and pairs effortlessly with stone, teak, and mixed materials for a more modern outdoor palette.
