

SKSCF2401P

24-inch Integrated Column Freezer

SKS

Largest Capacity Column

Designed to provide the largest capacity in the industry*, the 24-inch Integrated Column Freezer features 13.9 cu. ft. of storage capacity.

Signature Fit™ Integrated Design

Every integrated column features an intelligent, symmetrical design that allows for flush installation, along with easy door reversal.

Brilliant interior

The glass and metal interior is not only beautiful, it is designed to help the freezer stay at the set temperature by holding and transferring cold fast and efficiently.

Distinctive ice

The frustum ice shape gives an air of distinction while the removable clear bin holds up to 5.5 lbs., perfect for entertaining.

Eco friendly

Engineered to reduce environmental impact and ENERGY STAR® certified.

Limited Warranty Compressor, Parts Only	10 Years

*These warranties give you specific legal rights and you may have other rights that vary from state to state. For complete warranty details, refer to your Use & Care manual.

SKSCF2401P

24-inch Integrated Column Freezer

Cutout Dimensions - Flush Installation

Single Column

* A minimum 4" (102 mm) finished return that matches the cabinet exterior is recommended on all sides and the top of the cutout opening. The shaded area will be visible after installation.

Notes

Freezer can be installed flush with 3/4" custom panel or optional stainless steel panel kit.

With a 25" (635 mm) cutout depth, the front face of the freezer fits flush with 25" (635 mm) depth adjacent cabinets.

Electrical

A 115V, 60Hz., 15 amp power supply is required. An individual properly grounded branch circuit or circuit breaker is recommended. Install a properly grounded 3-prong electrical receptacle recessed into the back wall. Electrical must be located on rear wall as shown.

Note: GFI (ground fault interrupter) is not recommended.

Water Line

A cold water supply is required for automatic icemaker operation. Water pressure must be between 20 and 120 p.s.i. Tubing should be long enough to extend to the front of the freezer. Allow enough tubing to accommodate a bend leading into the water line connection.

Water line can enter an opening through floor or back wall.

Install a shut-off valve between the icemaker water valve and cold water supply in the home.

Installation Clearances - Flush Installation

Top View

* Door handle must be added to this dimension.

** Varies depending on the thickness of the custom cabinet panel. The door panels in the optional SKS stainless steel door panel kit are 3/4" (19 mm) thick.

Notes

Door Swing Clearances - The installation must allow for clearances to adjacent walls or cabinets. This freezer is equipped with a 2-position door stop. The factory-set 115° door swing can be adjusted to 90° if clearance to adjacent cabinets or walls is restricted.

Door Handle Clearances - The Door Handle depth must be added to the dimension noted to determine the total clearances required from adjacent cabinets or walls. This clearance will vary depending on the custom handle used. When using the Stainless Steel Door Panel Kit w/Handle or the Brushed Aluminum Handle (optional accessories), the door handle clearance with door open 115° is 14" (356 mm).

24-inch Integrated Column Freezer

Custom Panel Dimensions

Notes

These units are designed to be customized with decorative panels. Field-installed custom door panels or an optional Stainless Steel Panel Kit is required.

For Custom Panels: Use templates provided with units to pre-drill holes for mounting panel brackets (provided with unit). Adjustment screws and instructions also provided with units.

Maximum Total Door Panel Weights:

30-Inch Integrated Column - 64 lbs.

24-Inch Integrated Column - 53 lbs.

18-Inch Integrated Column - 44 lbs.

Design Tips

4" (102 mm) will be visible on the interior sides of the furniture return. It is recommended that both sides of each cutout panel be finished to match the cabinet exterior.

If using custom panels, a custom toe kick is required. The bottom of case is unfinished.

Door Handles: Handles are not included with the units. Custom handles are required for installation. Brushed Aluminum Handles are available as an optional accessory.

Optional Accessories

	Professional	Transitional
Stainless Steel Panel / Handle / Toekick Kit	SKSPK245CS	SKSPK245CMT
