- Three – Shelves
- One – Peg

Hardware Parts List

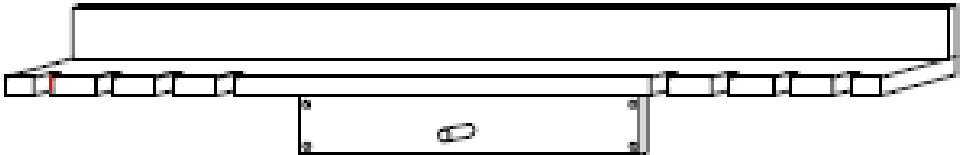

- Two – Mounting Brackets
- Twelve – 1½” Screws
- Four – Drywall Anchors

Parts and Hardware List

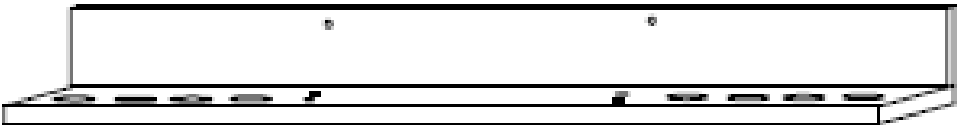

Side Panel

Top Crown

Bottom Panel

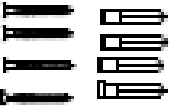

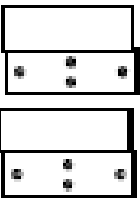

Shelf

1 1/2" Screws

Mounting Brackets

Drywall Anchors

1 1/2" Screws

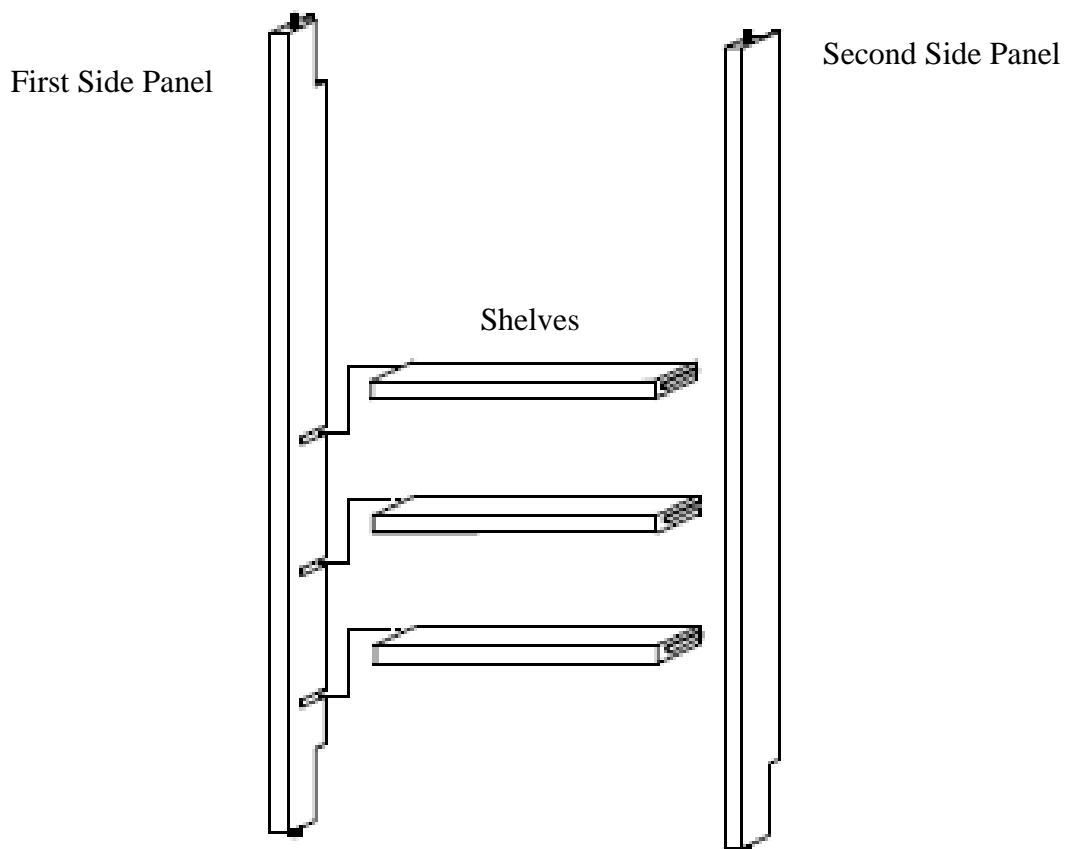

ASSEMBLY INSTRUCTIONS:

We recommend that two adults work together to assemble this table.

- *We suggest that you use a clean flat work area to protect your Cue Rack while assembling.*

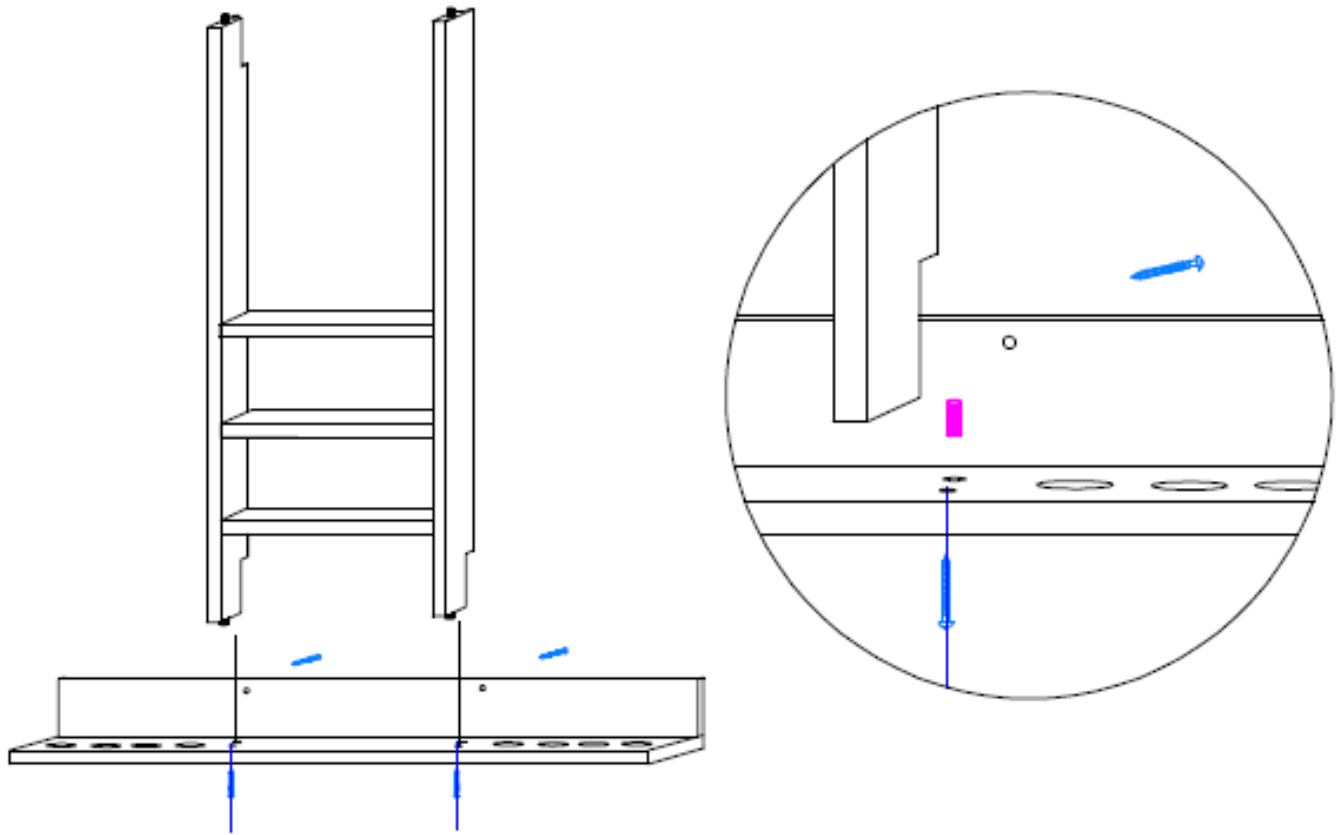

Step 1: Frame Assembly

- Attach the Shelves to the first Side Panel by inserting the dowels into the predrilled holes of one Side Panel.
- Once the Shelves are firmly attached to one Side Panel, firmly attach the second Side Panel by lining up the predrilled holes with the dowels on the Shelves

Step 2: Frame to Bottom Panel Attachment

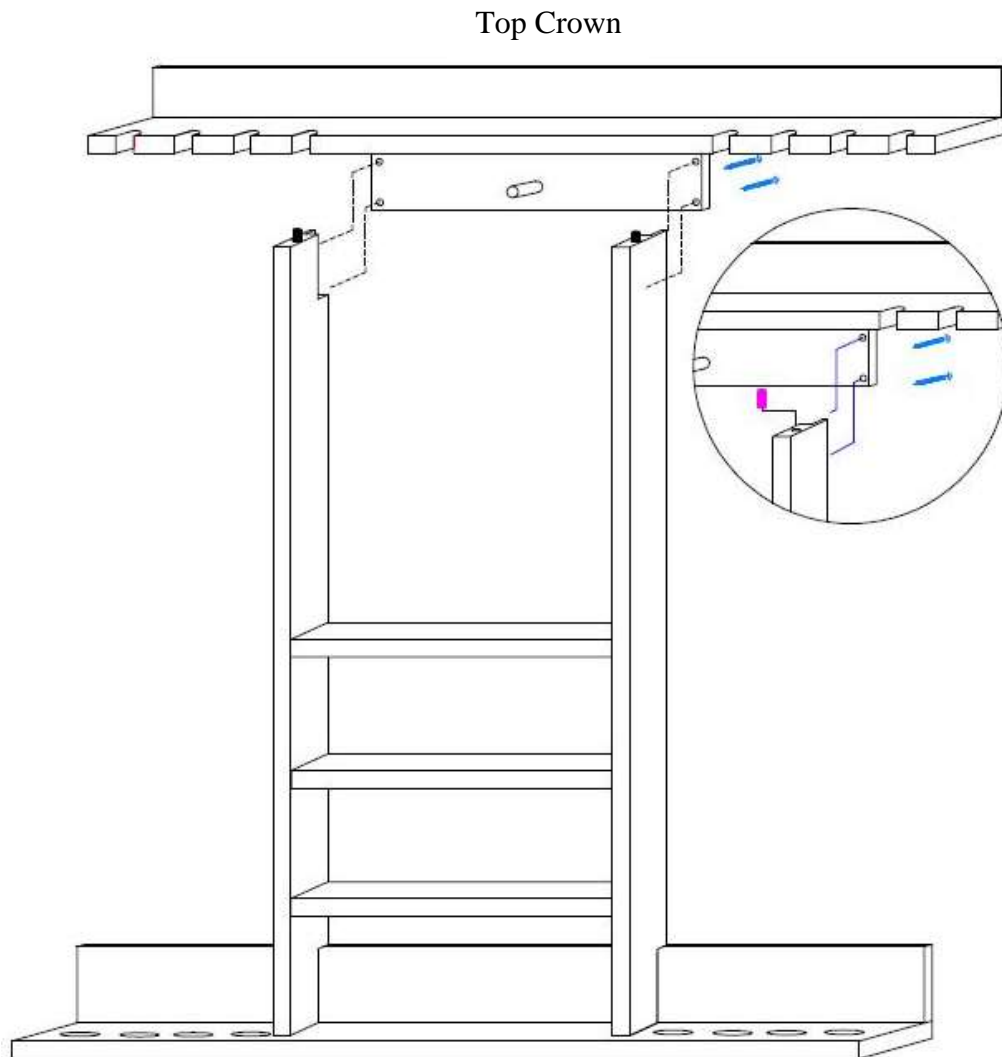

- Attach Bottom Panel to Side Panels by inserting the dowels on the Side Panels into the predrilled holes on the Bottom Panel.
- Then secure the Bottom Panel to the Side Panels by using two 1½” Screws in the bottom of the Bottom Panel and two 1½” Screws in the back of the Side Panels.

Bottom Panel

Step 3: Top Crown Attachment

- Attach Top Crown to Side Panels by inserting the dowels on the Side Panels into the predrilled holes on the Top Crown.
- Then secure the Top Crown to the Side Panels by using Four 1½" Screws in the back of the Top Crown
- Insert the Peg in to the Top Crown.

Step 4: Hanging your Cue Rack

- The Mounting Brackets pre-attached to the back of the Cue Rack are located to facilitate stud mounting, which is recommended.
- For stud mounting, locate the stud center and securely attach the mounting brackets using two 1½" Screws for each Mounting Bracket. For stud mounting, use the middle two holes on the Mounting Bracket.
- If you are unable to mount the Cue Rack using the studs, you must use two Drywall Anchors and two 1½" Screws for each Mounting Bracket. For Drywall Anchor mounting, use the outside two holes on the Mounting Bracket.
- Hang the Cue Rack on the wall as shown. Make sure the Cue Rack is secure.
