COFFEE TABLE | CM4412WN-C

DETAILS:

Posh and chic, these rounded tables are reminiscent of the bygone era of Hollywood stars. Infused with Art Deco inspiration, each piece features matte gold frames that hold up the top and bottom shelves. The top is made of faux marble in a glorious white shade with subtle variations in color. The sides add texture to an otherwise sterile piece--reeded panels curve around the corners and conceal a storage drawer for a slick, contemporary look.
