CENTURY LEATHER

What could be more personal than the living spaces we create to share with our family and friends? Whether a stylish, contemporary loft; an elegant, traditional library or the very casual, transitional family room; leather lends itself to any decorating style.

Leather is, quite simply, the perfect upholstery material. It's soft, supple and luxurious; yet durable, timeless and unique. In the hands of our master craftsmen and skilled artisans, it becomes the perfect chair, ottoman or sofa crafted to your design preferences.

For more than 65 years, Century Furniture has crafted furniture at the foot of the Appalachian Mountains in North Carolina.

We have never wavered from our founder's original ideal: to create furniture of such quality that it brings pride to both the customer and to the craftspeople that make it.

Infinite possibilities and unlimited attention.

Come complete your home with Century Leather.

DRYBRUSHING AND LEAFING

DRY BRUSHING

A gold or silver paint is made by combining a mixture of gold or silver powder to a clear glaze or gloss lacquer. It is applied by a skilled artisan to recessed areas to accentuate carved detail and mouldings. The brush is dipped in the mixture, then is brushed on an absorbent surface until it is nearly dry. Only then is it applied to furniture. As a result, it is more subtle than leafing.

Gold Dry Brushing

Silver Dry Brushing

LEAFING

Thin foil sheets of faux silver or gold leaf are applied by hand to accent design details such as carving and mouldings. They are then worn through and burnished to a fine patina to simulate aging.
