

# REN24SS7

35.63" x 23.5" x 23.75" (H x W x D)

24" wide ENERGY STAR certified 208-240V electric range in stainless steel with induction cooking surface, oven window, slide-out storage drawer, and pre-installed power cord with plug

### Highlights:

24" Wide ENERGY STAR certified induction range

Pre-installed cord with 4-prong NEMA 14-30P plug included

ENERGY STAR certified for guaranteed savings and a greener performance

### Product Features:

24" Wide ENERGY STAR Certified Induction Slim-fitting range with an electric oven and induction cooking surface for fast, safe, and efficient cooking

|                           |                                                                                                                                                                                           |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ENERGY STAR certified     | Rated by the DOE to perform with more efficiency than federal standards require, saving your unit energy and you on higher utility costs                                                  |
| Cord & plug included      | This unit ships with a pre-installed 50" long cord with a NEMA 14-30P 4-prong plug                                                                                                        |
| Slide-out storage drawer  | Save even more space by storing your pots and pans in this pull-out compartment                                                                                                           |
| Slim 24 inch width        | Apartment-sized width offers all the functionality you need in a smaller footprint                                                                                                        |
| Induction cooking surface | Electromagnetic heating technology where heat is generated inside your cookware, ensuring a more efficient process with less energy waste, faster heating, and a safer cooking experience |
| Smooth glass top          | A smooth cooking surface made from durable ceramic glass ensures improved safety and easy cleaning                                                                                        |
| Four cooking zones        | Induction surface features two 6 3/4" 2000W & two 7" 2500W elements                                                                                                                       |
| Boost function            | All cooking zones include a "boost" function that lets them operate at a higher setting for up to 5 minutes, ideal for reducing cook time when boiling water                              |
