## Polene Glass Bowl Large Smoky Brown

Proof that catchalls can still catch your eye. Polene keeps things organized and looking good. With its wide, shallow form and soft topaz tone, this glass bowl gives off a warm, vintage-inspired glow. The smoky brown color shifts subtly in the light, adding quiet depth to consoles, vanities, or anywhere that needs a finishing touch. Use it as a catchall—or let the shape speak for itself. It delivers on every level.

- **Soft Hues:** A shallow glass bowl in smoky brown with a sheen featuring topaz-colored hues that evoke the softness of vintage-colored glass.
