KIN Play

The Totem **LINK Wireless Transmitter** can be added to any powered speaker or amplifier equipped with a subwoofer output to pair with the KIN SUB 10 or Tribe Solution Sub. It's equipped with stereo RCA inputs, providing the option of a stereo connection or using only the left as an LFE input. **One LINK** can control two Totem wireless subwoofers. Set up is simple, just connect the **LINK** to the amp or powered speaker, push the pairing button, and push the pairing button on the sub. That's all you need to do to enjoy powerful bas delivered wirelessly, by the **NEW TOTEM LINK**.
