Impedance	16 ohm	
Sensitivity	110 dB/mW	
Maximum Power Input	250 mW	
Frequency Response	6-40,000 (Hz)	
Weight	6.6 g (not including cable)	
UPC	AHC620RBKEM	883795004022
	AHC620RWTEM	883795004039

**High-Quality Driver Technology**

The AH-C620R, available in black and white, uses an 11.5mm driver, mounted in housings combining die-cast aluminium and resin. Tuned for a flat QE curve, it delivers powerful bass and ultimate clarity at the same time.

**Remote and Mic**

The AH-C620R comes with a high-quality cable and a three-button remote controller including a microphone, letting you control music functions for your iPhone such as play/pause, forward, rewind or volume. Or use it to answer an incoming call or end the call.

**Denon Acoustic Optimizer**

Special ports at the front and rear housings help equalize air-pressure in front of and behind the drivers, making the sound as dynamic and distortion-free as possible.

**Special Comply Ear-Tips**

The AH-C620R is fitted with Comply TX500 ear-tips, which combine with the ergonomically-shaped housings to give a secure fit for the purest sound and maximum isolation from external noise. The tips use memory foam activated by the heat of the user's ears, and have an integral wax-guard to keep the inside of the earphones clean.

**Radial Cascade Damper**

Audio enthusiasts often complain about the noise generated from the cable rubbing against their chest when they're moving. Denon exclusive specially designed Radial Cascade Damper system reduces cable-transmitted vibration noise, enabling you to enjoy studio-quality music on the go.

**Denon Audio App**

The AH-C620R can be used with the dedicated Denon Audio Application for iOS and Android, allowing you to enhance the sound and tune it to suit your personal preferences.

"Made for iPod," "Made for iPhone," and "Made for iPad" mean that an electronic accessory has been designed to connect specifically to iPod, iPhone, or iPad, respectively, and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards.
