Assembly Instructions

Tool Required: Phillips Screwdriver, 9/16" or Adjustable Wrench, Mallet or Padded Hammer

1. Remove the drawers from the Case Assembly (Ac). To do that, pull up on the left Drawer Release Lever while pushing down on the right Drawer Release Lever and pull out the drawer. See Figure 1a. Note where each drawer came from to make sure you place them back into their correct positions.

2. Turn the Case Assembly (Ac) upside-down on a clean protected surface. Be careful not to engage the touch-latch on the pull-out writing/working surface. Place a Leg (D) into the right front and back corners, making sure the drilled portions of the legs face the corner blocks. Insert four 3/8" x 2-1/2" Hex Bolts (ZF) with four 5/16" Flat Washers (ZE) through the corner blocks and into the Legs (D). Fasten securely. See Figures 2 and 2a.

3. Attach the Left Side Assembly (C) to the drawer side of the case assembly with four 3/8"x 2-1/2" Hex Bolts (ZF) and four 5/16" Flat Washers (ZE). Fasten securely. Make sure the dowel is correctly seated in place by tapping the Left Side Assembly with a rubber mallet. See Figure 3.

4. Using the pocket drilled hole as a guide, secure the back leg of the Left Side Assembly to the case assembly with one #8 x 1-3/4" Pan Head Screw. See Figures 4 and 4a.

Assembly Instructions

- The center drawer (G) can be used as a keyboard tray or utility drawer. To use it as a keyboard tray, open the drawer and pull down on the front. This unlocks the roller catches. To lock it back into place, push up on the drawer front. See Figure 7.
The shortened drawer back allows easy cord access.

- Place the desk at its final destination. To level the unit, rotate the Adjustable Glides (ZG) found on the bottoms of the legs. See Figure 7.
- Use a protective pad when you use the top of this piece as a writing surface.
