<sup>+</sup> This model is equipped with halogen lighting: (2 lights: 30" - 41", 3 lights: 42" - 48").

<sup>#</sup> Ratings in accordance with the Standard Test Code by the Energy Systems Laboratory of the Texas Engineering Experiment Station.

<sup>\$</sup> Because the Power Lung™ blower uses centrifugal filtration rather than conventional baffle or mesh filters, the Power Lung™ blower can handle cooking equipment with higher cubic feet per minute (CFM) requirements and can deliver equivalent CFM much more efficiently than other filtration systems. When comparing the Power Lung™ with other blower units made by other manufacturers, use the "Equivalent CFM".
